

# Ubee® DOCSIS 3.0

## 8x4 Battery-Capable

### Advanced Wireless Voice Gateway

#### Model: DVW325B

#### DVW325B Device Highlights

**High Speed** – Increased bandwidth for subscribers' multimedia and high-bandwidth applications with speeds up to 300 Mbps downstream\* and 100 Mbps upstream.\*

**Advanced Wireless** – Eight SSIDs offer considerable flexibility for the customer's network. MSOs can reserve SSIDS for hotspots, guest access, and applications.

**Security** – Security authentication and encryption standards prevent unauthorized access to the wireless network including: WPA/WPA2, WPS, and SPI Firewall. IPv4 & IPv6 support increases address capacity and improves security.

**Network Interface** – Four 10/100/1000 Ethernet interfaces for high-speed LAN capability. One USB port with host controller.

**Voice** – Two analog telephone connections. The optional battery delivers uptime during unplanned events, such as power failures.

**Full Band Capture** – Channel lineup flexibility like no "block" tuner restrictions such as all DOCSIS bonding in certain frequency window and keeping voice service on existing channels.

**Enhanced Diagnostic Capabilities** – High performance spectrum analyzer helps reduce troubleshooting costs.

DVW325B Advanced Voice Wireless Gateway

\* - Actual speeds vary based on factors such as network configuration and service tier.

#### Overview

Ubee introduces the **DVW325B Advanced Wireless Voice Gateway**. With increased data throughput, the DVW325B targets residential and Small Office/Home Office (SOHO) customers by delivering 802.11n wireless speeds, excellent wireless coverage, Gigabit LAN performance, and high-tier WAN speeds. The DVW325B reduces operational expenditure (OpEx) by eliminating the need for multiple devices in the SOHO or the MSO warehouse. Additional features include:

- Speeds and Compatibility** — By supporting Gigabit Ethernet and 802.11n, the DVW325B offers LAN and wireless speeds that take advantage of higher speed tiers offered by DOCSIS 3.0. Further, the DVW325B is fully backwards compatible with 10/100 Ethernet, 802.11b/g wireless, and DOCSIS 1.0/1.1/2.0.
- QoS** — Quality of Service features enable traffic prioritization for delay-sensitive multimedia services and applications.
- Power Savings** — The DVW325B is Energy Star compliant and supports UAPSD power savings. UAPSD interacts with connected wireless clients prompting them to doze and save power when possible.

#### Let's Make It Easy

Combined with world-class engineering and manufacturing, Ubee's core principle is to make it easy to work with our products. Through the entire life cycle of our devices — from implementing requirements, staging, and deployment to operational support and the user experience — Ubee makes it easy. Contact a Ubee Product Specialist for more information on the **DVW325B Advanced Wireless Voice Gateway**.

# DVW325B Product Specifications

Interfaces & Standards	Wireless, Network, Security
<ul style="list-style-type: none"> <li><input type="checkbox"/> Cable: F-Connector, female</li> <li><input type="checkbox"/> LAN: 4 10/100/1000 Mbps RJ45 ports</li> <li><input type="checkbox"/> USB: 1 USB 2.0 host port</li> <li><input type="checkbox"/> Telephony: 2 RJ11 ports, PacketCable 1.5 certified, PacketCable 2.0 compatible (requires customization)</li> <li><input type="checkbox"/> DOCSIS/Euro DOCSIS 1.0/1.1/2.0/3.0 certified</li> <li><input type="checkbox"/> CE/FCC Class B, ENERGY STAR, and Wi-Fi Alliance certified, UAPSD (power savings)</li> </ul>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Supports 8 SSIDs, 802.11b/g/n compliant with link speeds up to 300 Mbps, 2 Tx and 2 Rx antennas</li> <li><input type="checkbox"/> DHCP client/server &amp; static IP network assignment, RIPv1/ v2, Ethernet 10/100/1000 BaseT, full-duplex auto-negotiate functionality, IPv4 and IPv6 support</li> <li><input type="checkbox"/> NAT firewall, MAC/IP/port filtering, parental control, stateful packet inspection, DoS attack protection, WPS, WPA, WPA2, WPA-PSK, &amp; 64/128-bit WEP encryption</li> <li><input type="checkbox"/> VPN pass-through, end-point support (IPSec/L2TP/PPTP), TACACS or RADIUS authentication</li> </ul>
Downstream*	Voice
<ul style="list-style-type: none"> <li><input type="checkbox"/> Frequency Range: 88MHz ~ 1002MHz</li> <li><input type="checkbox"/> Modulation: 64/256 QAM</li> <li><input type="checkbox"/> Channel Bandwidth: 6 MHz</li> <li><input type="checkbox"/> Maximum Data Rate Per Channel (up to 8 channels): DOCSIS = 30 Mbps (64 QAM), 42 Mbps (256 QAM)</li> <li><input type="checkbox"/> Total Max Bandwidth (8 Channels): DOCSIS = 342 (304) Mbps, EuroDOCSIS = 444 (400) Mbps</li> <li><input type="checkbox"/> Symbol Rate: 6952 Ksps</li> <li><input type="checkbox"/> RF Input Power: -15 to +15dBmV (64 QAM), -15 to +15dBmV (256 QAM)</li> <li><input type="checkbox"/> Input Impedance: 75 Ω</li> </ul>	<ul style="list-style-type: none"> <li><input type="checkbox"/> MGCP 1.0 / NCS 1.0</li> <li><input type="checkbox"/> Ring Voltage: 270 VAC, pk-pk (tip-ring)</li> <li><input type="checkbox"/> Line Voltage Onhook: -48 Volts</li> <li><input type="checkbox"/> Loop Current: 20mA/41mA</li> <li><input type="checkbox"/> Ring Capability: 2K ft., 5REN</li> <li><input type="checkbox"/> Hook State: Signaling loop start</li> <li><input type="checkbox"/> DTMF detection and generation, T.38 FAX relay (G.711), echo cancellation (G.165,G.168), silence suppression, voice activity detection, comfort noise generation, and dynamic jitter buffer</li> <li><input type="checkbox"/> Wideband SLIC provides G.722 codecs negotiation</li> </ul>
Upstream*	Device Management
<ul style="list-style-type: none"> <li><input type="checkbox"/> Frequency Range: 5MHz ~ 42MHz</li> <li><input type="checkbox"/> Modulation A-TDMA: QPSK, 8, 16, 32, 64QAM, S-CMDA: QPSK, 8, 16, 32, 64, 128QAM</li> <li><input type="checkbox"/> Max Bandwidth of 4 Channels = 122.88 (108) Mbps, bandwidth per channel (up to 4 channels) = [QPSK 0.32 ~ 10.24 Mbps, 8 QAM 0.48 ~ 15.36 Mbps, 16 QAM 0.64 ~ 20.48 Mbps, 32 QAM 0.80 ~ 25.60 Mbps, 64 QAM 0.96 ~ 30.72 Mbps, 128 QAM/TCM 30.72 Mbps]</li> <li><input type="checkbox"/> Symbol Rate: 160, 320, 640, 1280, 2560, 5120 Ksps</li> <li><input type="checkbox"/> RF Output Power: TDMA/ATDMA: +8dBmV to +54dBmV (32/64 QAM). S-CDMA: +8dBmV to +53dBmV (all modulations)</li> </ul>	<ul style="list-style-type: none"> <li><input type="checkbox"/> Supports IEEE 802.11e Wi-Fi Multimedia (WMM)</li> <li><input type="checkbox"/> DOCSIS, Web-based, and XML configuration</li> <li><input type="checkbox"/> Telnet remote management</li> <li><input type="checkbox"/> Firmware upgrade via TFTP</li> <li><input type="checkbox"/> Configuration backup and restore</li> <li><input type="checkbox"/> SNMP support</li> </ul>
Physical and Environmental	
	<ul style="list-style-type: none"> <li><input type="checkbox"/> Dimensions: 228(W) x 230(D) X 60(H) mm</li> <li><input type="checkbox"/> Weight: 934g (with battery)</li> <li><input type="checkbox"/> Power: 12V/2.5A NOM certified, full range voltage</li> <li><input type="checkbox"/> Operating Temperature: 0°C ~ 40°C</li> <li><input type="checkbox"/> Humidity: 5~90% (non-condensing)</li> <li><input type="checkbox"/> Battery: Supports continuous voice service during power outages; up to 6 hours standby, 4 hours talk time with one line active</li> </ul>
<p><b>Customer Premises or Small Office/Home Office (SOHO)</b></p> <p>The diagram illustrates the DVW325B's role as a central hub in a SOHO network. It connects to multiple devices via its RJ11, RJ45, and Ethernet ports. The INTERNET connection is made through a Cable RF/Coax line. A dashed line indicates a connection to a Subscriber Network Extensions unit, which can be expanded with additional routers or hubs.</p>
