

INTRODUCING INSEEGO'S 5G MIFI® M1000

Connect to Ultra Wideband with the first 5G MiFi Mobile Hotspot

The First Mobile Hotspot with 5G Ultra Wideband

Be the first to experience 5G Ultra Wideband with the 5G MiFi M1000 by Inseego. Improve your productivity with blazing-fast data speeds. Experience cloud gaming, augmented and virtual reality (AR/VR) with virtually no lag time. Download and stream hi-res video in a flash. Whatever you want to do, now you can do it faster.

5G and 4G LTE-A Pro for Speed and Coverage

The M1000 combines 5G Ultra Wideband with advanced 4G LTE technology to ensure the fastest data speeds possible wherever you go. With a seamless connection to 4G and 5G service*, it delivers the best of both worlds.

High-Capacity, Fast-Charging Battery to Power Through Your Day

With its power optimization features, 4400 mAh Li-Ion battery and QuickCharge™ technology, the M1000 stays up and running for a full day of usage and connectivity.**

Best-in-class, Enterprise-Grade Security

Engineered with layers of sophisticated security, including customizable user security settings, advanced administrative capabilities, industry-leading anti-hacking features, VPN pass-through and more.

Stay Connected Any Way You Want

Whether you're connecting a mobile office with laptops and smartphones, a VR headset, an industrial IoT router or even a robot, the M1000 meets all your needs for speed and big data feeds. Supports up to 16 connections (15 via Wi-Fi plus one via ethernet or USB).

Color Display with Easy Touchscreen Controls

An intuitive user interface puts all vital information at your fingertips. Simple menus on the large 2.4" color touchscreen make it easy to manage passwords, device settings, data usage and more.

* Data plan required. Coverage subject to network availability.

** Battery life may vary depending upon number of connected devices and activity.
