- Weight : 46g
- Supply voltage range : 100VAC - 240VAC (50/60 Hz)
- Power Consumption : 2 ~ 2,5 W

DESCRIPTION

The EM4594 300N Mini WiFi Repeater increases your wireless network coverage on the 2.4GHz band throughout your home. The repeater blends into your interior because of its super compact design. It only keeps one power outlet occupied. Installing the EM4594 repeater is very easy with help of the WPS button and installation wizard. Once installed, you can choose whether you want to enable or disable the LED light. The repeater has a physical on/off switch. Did you know the EM4594 works as an access point too? You are able to make use of a WiFi signal in places you normally could use a wired connection only.
