

R-ADSL-C4-2

Integrated ADSL2+ Broadband Router

Introduction

Upgrade from your existing ADSL Modem to the new feature rich 3-products-in-1 ADSL2+ Router with Safe&Secure™ SPI Firewall.

Featuring a newly designed integrated ADSL2+ Modem which is up to 5 times faster than competing brands and allows Internet speeds of up to 24Mbps, great for Video on Demand, Online Gaming or Remote Server applications.

With the award winning Safe&Secure™ SPI Hardware Firewall with advanced features like Port Forwarding and DMZ, the R-ADSL-C4-2 is the perfect ADSL solution for both Home, Education and Office Networks.

Coupled with EzeSetup™ Web Based configuration and integrated 4-Port Fast Switch to allow multiple users to share one Internet connection, the R-ADSL-C4-2 is the Router of choice for all your ADSL Broadband applications – **only from Dynamode**
