

# R-ADSL-C4W-EG

Integrated ADSL2+ Broadband Wireless Router

## Introduction

Connect to the Internet at extreme speeds with the new R-ADSL-C4W-EG Wireless ADSL2/2+ Router from Dynamode.

Featuring a newly designed integrated ADSL2+ Modem which is up to 5 times faster than competing brands and allows Internet speeds of up to 24Mbps, great for Video on Demand, Online Gaming or Remote Server applications.

Save money also with this 4-products-in-1 designed. Featuring a class leading 125Mbps Wireless Access Point with rock solid WPA-2 encryption, award winning Safe&Secure™ Dual SPI Firewall and integrated 4-Port Fast Ethernet Switch to connect any network device.

Coupled with EzeSetup™ Web Based configuration to get you up and running in minutes the R-ADSL-C4W-EG is the Router of choice for all your ADSL Broadband applications – **only from Dynamode**
