

MiFi® 7000

Global LTE Mobile Hotspot by Inseego

Introducing the newest addition to Inseego's (formerly Novatel Wireless) award-winning family of MiFi Mobile Hotspots. The Global LTE Mobile Hotspot - MiFi 7000 is a premium device that offers faster CAT 9 LTE technology, for up to 24 hours on a single charge. With real simultaneous dual-band Wi-Fi, users can connect in 2.4GHz or 5GHz bands simultaneously, improving the quality and speed of the wireless connections. The vibrant 2.4" full-color touch screen display offers more features and onscreen help, giving you the best user experience around. With QuickCharge™ technology you can go from 0-100% charged in just over 3 hours. Does your phone or tablet need a boost? No problem! The MiFi 7000 supports universal charging to make sure you can stay connected all day.

Brilliant Color Touchscreen Display

Featuring a full-color, 2.4" touch screen display, the MiFi 7000 boasts more features and onscreen help than ever before, giving you the best user experience possible.

Super Powerful and Remarkably Efficient

Up to 24** hours of battery life on a single charge, and with QuickCharge™ technology, you can go from 0 to 100% in just over 3 hours! The MiFi 7000 gives you all-day power for surfing the Web or catching up on email without a mid-day re-charge. Put it in standby mode and you'll conserve battery life for days without ever needing to plug in.

Recharge

Is your smartphone battery about to flatline? Give it a boost with the MiFi 7000 universal charging feature without compromising the performance of your mobile hotspot. Now you and your devices can stay connected longer.

Share Files

MiFi Share provides a new way to share files with connected devices on the local, secure Wi-Fi network via a USB memory stick.

Fast and Global

Achieve ultimate download speeds with LTE Category 9 with 3x carrier aggregation (up to 50MHz). With real simultaneous dual-band Wi-Fi, the MiFi 7000 allows up to 15 Wi-Fi clients to connect in 2.4GHz or 5GHz bands simultaneously, improving the link quality and speed, reducing network congestion and improving the quality of the wireless connections.

Security for All - Always

From hacker prevention, encryption, enterprise-grade protection and VPN pass-through, you can connect with confidence that your data is secure. MiFi 7000 features the latest Wi-Fi security protocols, password protection and Guest Wi-Fi network. IT administrators can now customize the settings on the Admin portal to prevent the device's factory reset button from being used.

Powerful Impact Towards a Smaller Footprint

Innovation goes hand-in-hand with progress towards environmental responsibility. The MiFi 7000 reflects environmentally preferable, conflict-free materials and sustainable manufacturing, minimizing environmental impact and health risks.

NOTE: Data plan required. Coverage subject to network availability.

** Battery life may vary depending upon number of connected devices and activity.

MiFi® 7000 Global LTE Mobile Hotspot

by Inseego

TECHNOLOGY

- Global CAT 9 LTE: B2/B3/B4/B5/B7/B12/B13/B17/B20/B28/B29/B66
- 1xRTT/EV-DO Rev. A/0: BC0/BC1 (optional)
- HSPA+/UMTS: B1/B2/B4/B5/B8
- EDGE/GPRS: B2/B3/B5/B8

GPS

- sGPS w/XTRA

DIMENSIONS AND WEIGHT

- 109 x 67 x 18mm (4.29" x 2.64" x 0.71")
- 152g (5.36 Oz)

ENVIRONMENTAL

- Operating Temperature: -10°C to 55°C

WLAN

- 802.11 a/b/g/n/ac
- Wi-Fi 2.4 GHz & 5 GHz
- Real Simultaneous Dual-Band Wi-Fi
- Multiple SSID/Guest Wi-Fi Support
- Connect up to 15 Wi-Fi Enabled Devices

Display

- 2.4" Color Touchscreen Display
- Power Indicator LED
- Languages: English, French, Spanish Portuguese

SYSTEMS SUPPORTED

- Windows® 7, 8, 10
- Mac OS® X 10.7 or Higher
- Linux® Ubuntu 12.4 or Higher

BATTERY

- 4400 mAh Li-Ion Battery
- Use Time: up to 24 hrs**

PORTS

- Type C USB - Charging, Tethering, MiFi Share
- Type A USB - Universal Charging
- Dual TS9 antenna ports (main & diversity)

SIM

- 4FF

SECURITY

- Wi-Fi Security (WPA/WPA2)
- Wi-Fi Protected Setup (WPS)
- Wi-Fi privacy separation
- VPN Pass-Through
- MAC Address Filtering
- NAT Firewall
- Port Filtering
- Security Hardened Web Interface
- Password Hash
- Anti-CSRF
- Session Timeout
- Turn Off Wi-Fi Broadcasting & USB Tethering
- Incorrect Password Lockout
- Use Admin portal to block factory reset
