

Own Simple and Affordable Cable Internet Connectivity

Experience the savings of owning your own cable modem! The Linksys Cable Modem is the easiest and most affordable way to get a blazing fast connection to the Internet -- far faster than a dial-up, and without tying up your phone line. The "always on" connection eliminates dial-up wait time and busy signals. Web surfing and your e-mail are instantly available, anytime. And with the extra speed, online gaming is a whole new experience, and download time on big music, video, and other files goes from hours to minutes.

Installation is quick and simple. Connect it directly to any PC with an available USB or Ethernet port, and you're ready to surf the Internet. Or connect it to a Linksys router and share that high-speed Internet access with everyone on your home network.

The Linksys Cable Modem is fully compliant with all industry standards — DOCSIS 1.0, 1.1, and 2.0 — so you know it'll work with any DOCSIS cable Internet service provider.

With the Linksys Cable Modem, you'll avoid monthly rent charges, and make the most of your high-speed cable Internet connection.

Own your own DOCSIS 2.0 Cable Modem and avoid paying monthly rent

Easy installation - one phone call to your Internet service provider completes the setup

"Always on" connection eliminates dial-up wait times and busy signals

Up to 100 times faster than dial-up Internet connections

Cable Modem

with USB and Ethernet Connections
