

## Securely Share Your High-Speed Internet Connection Throughout Your Home or Office

Think of the Broadband Firewall Router as a kind of "splitter" and secure gatekeeper for your Internet connection. Just connect your DSL or Cable Modem to the Router, and all the computers in your household can share the Internet -- all at the same time. The built-in 4-port switch lets you attach four local PCs directly, or daisy-chain out to more hubs and switches as your network grows.

Once your computers are connected to the Internet through the Router, they can communicate with each other too, sharing resources and files. All your computers can print on a shared printer connected

anywhere in the house. And you can share all kinds of files between computers -- music, digital pictures, and other documents.

The Router's powerful SPI firewall protects your PCs against intruders and most known Internet attacks. It can serve as a DHCP Server, can be configured to filter internal users' access to the Internet, and has MAC or IP address filtering so you can specify exactly who has access to your network. Universal Plug-and-Play (UPnP) lets specialized Internet applications configure the Router so you don't have to. Finally, the Virtual Private Network (VPN) function creates encrypted "tunnels" through the Internet so up to two traveling users can securely connect to your network from off-site, or users at home can connect to a corporate network. Configuration is a snap with the web browser-based configuration utility.

With the security of the Broadband Firewall Router with 4-Port Switch/VPN Endpoint at the heart of your home network, you can get the most out of your fast Internet connection and still rest easy.

Securely share your high-speed cable or DSL Internet connection with multiple computers

Built-in switch connects four local PCs directly, and daisy-chain out to more hubs and switches as your network grows

High security: Powerful SPI firewall, advanced access controls, and up to two simultaneous VPN endpoints

Supports DHCP, Universal Plug-and-Play (UPnP), DMZ, and includes a user-friendly Setup Wizard for easy configuration

# Broadband Firewall Router

## with 4-Port Switch/ VPN Endpoint

Product Data

# Broadband Firewall Router with 4-Port Switch/VPN Endpoint

## Features

- Supports Up to Two Virtual Private Network (VPN) Tunnels
- Protects PCs from Ping of Death, SYN Flood, Land Attack, IP Spoofing, and other DoS (Denial of Service) Attacks
- Supports URL, Time, Proxy, Java, ActiveX, and Cookie Filters
- Easily Configurable through a Web Browser from Any Networked PC
- Administer and Upgrade the Router Remotely over the Internet
- Supports Traffic and Event log
- Configurable as a DHCP Server on the Network
- Administrators Can Filter Specific Internal Users' Internet Access.
- Supports SNMP Ver. 2
- Supports NTP (Network Time Protocol) for Synchronization with Real-Time Server
- Support for PPPoE Connection
- Dedicated Port for DMZ

## Specifications

Standards	IEEE 802.3, IEEE 802.3u
Ports	One 10/100 RJ-45 Internet Port, Four 10/100 RJ-45 Ethernet Ports, One Power Port
Buttons	Reset
Cabling Type	UTP Category 5
LEDs	Power, DMZ, Ethernet, Internet

## Environmental

Dimensions (W x H x D)	186 mm x 48 mm x 154 mm (7.32" x 1.88" x 6.06")
Unit Weight	13.4 oz. (0.38 kg)
Power Input	External, 12V DC, 1000 mA
Certifications	FCC Class B, CE Mark Commercial, VCCI
Operating Temp.	32°F to 104°F (0°C to 40°C)
Storage Temp.	-4°F to 158°F (-20°C to 70°C)
Operating Humidity	10% to 85%, Non-Condensing
Storage Humidity	5% to 90%, Non-Condensing

Linksys products are available in more than 50 countries, supported by 12 Linksys Regional Offices throughout the world. For a complete list of local Linksys Sales and Technical Support contacts, visit our Worldwide Web Site at [www.linksys.com](http://www.linksys.com).

## Minimum Requirements

- Broadband connection and Cable/DSL modem
- TCP/IP Protocol
- CD-ROM Drive
- Internet Explorer 5.0 or Netscape 6 for Web-based Configuration
- Network Adapter
- Network Cable

## Package Contents

- Broadband Firewall Router
- Power Adapter
- Network Cable
- Setup CD-ROMs with User Guides
- Quick Installation Guide
- Registration Card
