- Strong security features, including a built-in firewall, Network Address Translation (NAT), and access control lists
- Microsoft Broadband Network Utility for easy monitoring of your network status
- Toll-free product support, 24 hours a day, 7 days a week
- Integrated 4-port Ethernet switch, allowing you to add up to four wired computers to your network

Included in the Box

- Microsoft Broadband Networking Wired Base Station
- Base station stand (detachable)
- Power supply cable
- Blue Ethernet cable (6ft.)
- *Start Here* guide and *User's Guide*
- Setup CD-ROM
- Blank floppy disk

Microsoft®

Wired Base Station MN-100

Router with integrated 4-port Ethernet switch

System Requirements

Requirements (Wired Base Station)

· Computer with a network adapter to configure base station

· External broadband (cable, DSL, or other) modem with Ethernet port (not compatible with dial-up modems)

· Microsoft Internet Explorer 5.0 or Netscape Navigator 4.7 or later to view and use the Base Station Management Tool

· Available 120 V AC power outlet

Additional Requirements (Setup Wizard and Broadband Network Utility)

· Computer with processor running Microsoft Windows® 98, Windows 98 SE, Windows Millennium Edition (Windows Me), Windows 2000* Professional, Windows XP Professional, or Windows XP Home Edition operating system

· Microsoft Internet Explorer 5.0 or later; setup will install Internet Explorer 6.0 browser components, if necessary, but will not displace your primary browser

· 28 MB of available hard-disk space if you already have Internet Explorer 5.5 or 6.0

· 4x or faster CD-ROM drive

· VGA or higher resolution monitor

* Setup features and functionality are limited on Windows 2000.

Recommended

· Microsoft mouse or compatible pointing device
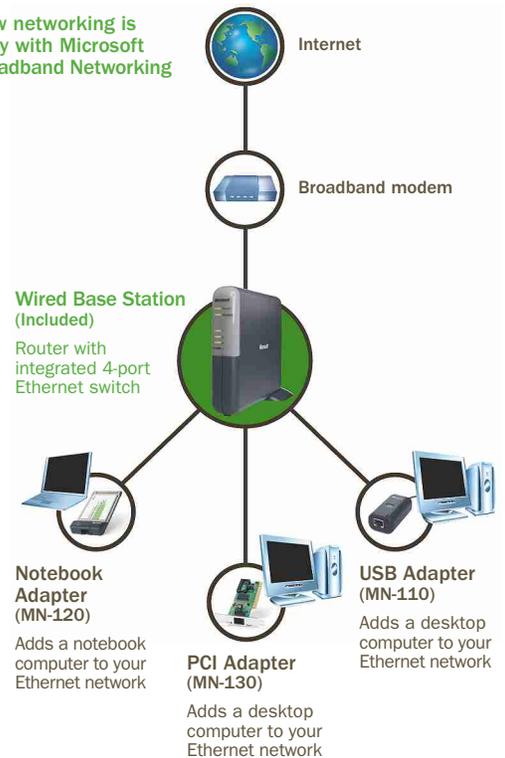

· 3.5" high-density disk drive

Note:
Not all Internet service providers (ISPs) allow the sharing of a broadband connection. Please check with your ISP.

The easy, secure way to share a broadband connection, files, and printers with multiple computers

The Microsoft 10/100 Ethernet Wired Base Station makes it easy to connect multiple computers in your home or small office to the Internet though a single broadband connection, such as a cable or DSL modem.

■ Easy-to-use setup wizard helps you quickly connect computers and set up your network in minutes.

■ Enables you to share files and printers with other computers on the network.

■ Supports virtual private networking (VPN) to enable secure remote logon to another network such as your office network.

■ Lets you play games with multiple players on the Internet and within your own network.

■ Includes the Microsoft Broadband Network Utility allowing your to easily monitor your network status.

■ Allows you to share a single broadband connection with all the computers on your Ethernet network (network adapters sold separately).

■ Provides strong security features including a built-in firewall, Network Address Translation (NAT), and access control lists.
