FCC:

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

-
- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

For operation within 5.15 ~ 5.25GHz frequency range, it is restricted to indoor environment.

IMPORTANT NOTE:**FCC Radiation Exposure Statement:**

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

The availability of some specific channels and/or operational frequency bands are country dependent and are firmware programmed at the factory to match the intended destination. The firmware setting is not accessible by the end user.

Warranty

1. Manufacturer guarantees absence of manufacturing defects and failures of the Equipment and bears responsibility accordingly to warranty.
2. If your AirTies product fails, contact AirTies 24/7 Technical Support first (see 24/7 support number on www.airties.com). Most problems can be solved by consulting the experts at AirTies technical support.
3. If the AirTies 24/7 technical support requires, you will be assigned a problem tracking number and asked to ship the faulty unit to AirTies repair center. Please, write the problem tracking number legibly on the package.
4. The product is under warranty for 3 years starting from the date of purchase.
5. The parts that are shipped with the product such as power adapter and cables are all covered under this 3-year warranty.
6. If the product fails for any reason within the warranty period, it will be repaired by AirTies or an AirTies Authorised service provider at no cost to the customer.
7. The units that are not repairable will be replaced by a new or refurbished unit at no cost to the customer.
8. The warranty does not cover defects caused by misuse or abuse of the product.
9. The products that are sent to an Authorised AirTies Service Center, will be repaired or replaced and shipped back to the customer within 3 business days from the date it is received.
10. If a replacement with the same product model is not possible, AirTies will replace the unit with a newer model that has all the features of the original product.
11. Check www.airties.com for repair centers.
