USER GUIDE

Dual-Band Wireless-N ExpressCard

Model: **WEC600N**

N **ULTRA** **RANGE**_PLUS_

About This Guide

Icon Descriptions

While reading through the User Guide you may see various icons that call attention to specific items. Below is a description of these icons:

NOTE: This check mark indicates that there is a note of interest and is something that you should pay special attention to while using the product.

WARNING: This exclamation point indicates that there is a caution or warning and it is something that could damage your property or product.

WEB: This globe icon indicates a noteworthy website address or e-mail address.

Online Resources

Website addresses in this document are listed without **http://** in front of the address because most current web browsers do not require it. If you use an older web browser, you may have to add **http://** in front of the web address.

Chapter 1:
Product Overview

Thank you for choosing the Linksys Dual-Band Wireless-N ExpressCard. Using the latest wireless networking technology, Wireless-N (draft 802.11n), the ExpressCard adds or upgrades wireless connectivity on your notebook computer. Because the ExpressCard can work in both the 5 and 2.4 GHz radio bands, it can connect to Wireless-A, Wireless-N, Wireless-G, or Wireless-B networks. To help protect your data and privacy, your wireless connection is protected by industrial-strength WPA2 encryption. The included Setup Wizard will walk you through configuring the ExpressCard to your network's settings, step by step.

LEDs

Power (Blue) The Power LED lights up when the ExpressCard is powered on.

Link/Act (Blue) The Link/Act LED flashes when there is network activity.

Chapter 2: Wireless Security Checklist

Wireless networks are convenient and easy to install, so homes with high-speed Internet access are adopting them at a rapid pace. Because wireless networking operates by sending information over radio waves, it can be more vulnerable to intruders than a traditional wired network. Like signals from your cellular or cordless phones, signals from your wireless network can also be intercepted. Since you cannot physically prevent someone from connecting to your wireless network, you need to take some additional steps to keep your network secure.

1. Change the default wireless network name or SSID

Wireless devices have a default wireless network name or Service Set Identifier (SSID) set by the factory. This is the name of your wireless network, and can be up to 32 characters in length. Linksys wireless products use **linksys** as the default wireless network name. You should change the wireless network name to something unique to distinguish your wireless network from other wireless networks that may exist around you, but do not use personal information (such as your Social Security number) because this information may be available for anyone to see when browsing for wireless networks.

2. Change the default password

For wireless products such as access points, routers, and gateways, you will be asked for a password when you want to change their settings. These devices have a default password set by the factory. The Linksys default password is **admin**. Hackers know these defaults and may try to use them to access your wireless device and change your network settings. To thwart any unauthorized changes, customize the device's password so it will be hard to guess.

3. Enable MAC address filtering

Linksys routers and gateways give you the ability to enable Media Access Control (MAC) address filtering. The MAC address is a unique series of numbers and letters assigned to every networking device. With MAC address filtering enabled, wireless network access is provided solely for wireless devices with specific MAC addresses. For example, you can specify the MAC address of each computer in your home so that only those computers can access your wireless network.

4. Enable encryption

Encryption protects data transmitted over a wireless network. Wi-Fi Protected Access (WPA/WPA2) and Wired Equivalency Privacy (WEP) offer different levels of security for wireless communication.

A network encrypted with WPA/WPA2 is more secure than a network encrypted with WEP, because WPA/WPA2 uses dynamic key encryption. To protect the information as it passes over the airwaves, you should enable the highest level of encryption supported by your network equipment.

WEP is an older encryption standard and may be the only option available on some older devices that do not support WPA.

General Network Security Guidelines

Wireless network security is useless if the underlying network is not secure.

- Password protect all computers on the network and individually password protect sensitive files.
- Change passwords on a regular basis.
- Install anti-virus software and personal firewall software.
- Disable file sharing (peer-to-peer). Some applications may open file sharing without your consent and/or knowledge.

Additional Security Tips

- Keep wireless routers, access points, or gateways away from exterior walls and windows.
- Turn wireless routers, access points, or gateways off when they are not being used (at night, during vacations).
- Use strong passphrases that are at least eight characters in length. Combine letters and numbers to avoid using standard words that can be found in the dictionary.

WEB: For more information on wireless security, visit **www.linksys.com/security**

Chapter 3:
Advanced Configuration

Advanced configuration is done through the Wireless Network Monitor (the Monitor). Use it to check the link information, search for available wireless networks, or create profiles that hold different configuration settings.

How to Access the Wireless Network Monitor

After installing the ExpressCard, the Wireless Network Monitor icon appears in the system tray of your computer. If the Wireless Network Monitor is enabled, the icon is green. If the Wireless Network Monitor is disabled or the ExpressCard is not inserted, the icon is gray.

How to Use the Wireless Network Monitor

The opening screen of the Wireless Network Monitor is the *Link Information* screen. From this screen, you can find out how strong the current wireless signal is and how good the connection's quality is. Click **More Information** to view additional status information about the current connection. To search for available wireless networks, click the **Connect** tab. To perform configuration changes or create connection profiles, click the **Profiles** tab.

Link Information

The *Link Information* screen displays network mode, signal strength, and link quality information about the current connection. Click **More Information** for additional status information.

Link Information

Ad-Hoc Mode or Infrastructure Mode The screen indicates whether the ExpressCard is currently working in ad-hoc or infrastructure mode.

Signal Strength The Signal Strength bar indicates signal strength.

Link Quality The Link Quality bar indicates the quality of the wireless network connection.

Click **More Information** to view additional information about the wireless network connection on the *Wireless Network Status* screen.

Wireless Network Status

The *Wireless Network Status* screen provides information on your current network settings.

Wireless Network Status

Radio Band This is the radio band used on the network.

Wireless Network Name This is the unique name (SSID) of the wireless network.

Wireless Mode This is the mode of the wireless network currently in use.

Wide Channel This is the Wireless-N primary channel used with a 40 MHz radio band network.

Standard Channel This is the channel used by your wireless network.

Security This is the status of the wireless security feature.

Authentication This is your wireless network's authentication method.

Network Type This is the wireless network type.

IP Address This is the IP Address of the ExpressCard.

Subnet Mask This is the ExpressCard's Subnet Mask.

Default Gateway This is the Default Gateway address.

DNS1 This is the DNS address of the ExpressCard.

MAC Address This is the MAC address of the wireless network's wireless router or access point.

Signal Strength The Signal Strength bar indicates the signal strength.

Link Quality The Link Quality bar indicates the quality of the wireless network connection.

Click **Statistics** to go to the *Wireless Network Statistics* screen. Click **Back** to return to the initial *Link Information* screen. Click **Save to Profile** to save the currently active connection settings to a profile.

Wireless Network Statistics

The *Wireless Networks Statistics* screen provides statistics on your current network settings.

Wireless Network Statistics

Transmit Rate This is the data transmission rate of the current connection. (In Auto mode, the ExpressCard dynamically shifts to the fastest data transmission rate at any given time.)

Receive Rate This is the rate that the ExpressCard receives data.

Packets Received This shows the packets that the ExpressCard receives, in real time, after connecting to the wireless network or after clicking Refresh.

Packets Transmitted This shows the packets that the ExpressCard transmits, in real time, after connecting to the wireless network or after clicking Refresh.

Bytes Received This shows the bytes that the ExpressCard receives, in real time, after connecting to the wireless network or after clicking Refresh.

Bytes Transmitted This shows the bytes that the ExpressCard transmits, in real time, after connecting to the wireless network or after clicking Refresh.

Driver Version This shows the ExpressCard's driver version.

Noise Level This shows the level of background noise that affects the wireless signal. A lower reading translates into a higher quality signal.

Signal Strength This is the intensity of the wireless signal that the ExpressCard receives.

Transmit Power This is the power output at which the ExpressCard transmits.

Up Time This indicates the length of the most recent connection to a wireless network.

Total Up Time This indicates the cumulative total of the ExpressCard's connection time.
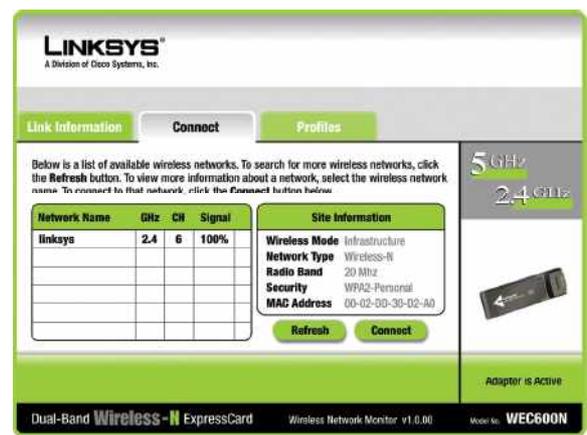

Signal Strength The Signal Strength bar indicates the signal strength.

Link Quality The Link Quality bar indicates the quality of the wireless network connection.

Click **Back** to return to the initial *Link Information* screen. Click **Status** to go to the *Wireless Network Status* screen. Click **Save to Profile** to save the currently active connection settings to a profile. Click **Refresh** to reset the statistics.

Connect

The *Connect* screen displays a list of available networks in the table on the left. The table shows each network's wireless network name, radio band, channel, and the quality of the wireless signal the ExpressCard receives. You may click Network Name, GHz, CH (Channel), or Signal, to sort by that field.

Connect

Wireless Network Name This is the SSID or unique name of the wireless network.

GHz This is the radio band used by the network.

CH This is the channel that the network uses.

Signal This is the percentage of signal strength, from 0 to 100%.

Site Information

For each network selected, the following settings are listed:

Wireless Mode This is the mode of the wireless network currently in use.

Network Type This is the network type used by your wireless network.

Radio Band This is the radio band used by your wireless network.

Security This is the status of the wireless security feature.

MAC Address This is the MAC address of the wireless network's wireless router or access point.

Refresh Click **Refresh** to perform a new search for wireless devices.

Connect To connect to one of the networks on the list, select the wireless network, and click **Connect**. If the network's wireless security is enabled, then one of these wireless security screen appears:

WEP (Wired Equivalent Privacy)

If the network has WEP encryption enabled, then you see the *WEP Key Needed for Connection* screen.

WEP Security

WEP Select **64-bit** or **128-bit** encryption.

Passphrase Enter the network's Passphrase, so a WEP key is automatically generated. The passphrase is case-sensitive and must be 16 or fewer alphanumeric characters. It must match the passphrase of your other wireless network devices and is compatible with Linksys wireless products only. (For non-Linksys wireless products, enter the WEP key manually.)

WEP Key If you do not have the Passphrase, enter the WEP key, which must match the WEP key of your wireless network. For 64-bit encryption, enter exactly 10 hexadecimal characters ("0" to "9" and "A" to "F".) For 128-bit encryption, enter exactly 26 hexadecimal characters.

To connect to the network, click **Connect**. To cancel the connection, click **Cancel**.

WPA (Wi-Fi Protected Access)

If the network has WPA Personal security enabled, then you see the *WPA Personal Needed for Connection* screen.

WPA-Personal Security

Encryption Select the type of algorithm you want to use, **TKIP** or **AES**.

Pre-shared Key Enter the network's Pre-shared Key of 8-63 characters.

To connect to the network, click **Connect**. To cancel the connection, click **Cancel**.

WPA2 (Wi-Fi Protected Access 2)

If the network has WPA2 Personal security enabled, then you see the *WPA2 Personal Needed for Connection* screen.

WPA2-Personal Security

Pre-shared Key Enter the network's Pre-shared Key of 8-63 characters.

To connect to the network, click **Connect**. To cancel the connection, click **Cancel**.

Profiles

The *Profiles* screen lets you save different configuration profiles for different network setups. The table on the left displays a list of available profiles with their profile names and wireless network names.

Profiles

Profile This is the name of the profile.

Wireless Network Name This is the SSID or unique name of the wireless network.

Profile Information

For each profile selected, the following are listed:

Wireless Network This is the type of wireless network currently in use.

Wireless Mode This is the mode of the wireless network currently in use.

Standard Channel This displays the channel used by your wireless network.

Security This is the status of the wireless security.

Authentication This is the authentication setting for the network.

Connect To connect to a wireless network using a specific profile, select the profile, and click **Connect**.

New Click **New** to create a new profile. See the next section, "Create a New Profile," for instructions.

Edit Select the profile you want to change and click **Edit**.

Import Click **Import** to import a profile that is saved in another location. Select the appropriate file, and click **Open**.

Export Select the profile you want to save in a different location, and click **Export**. Direct Windows to the appropriate folder, and click **Save**.
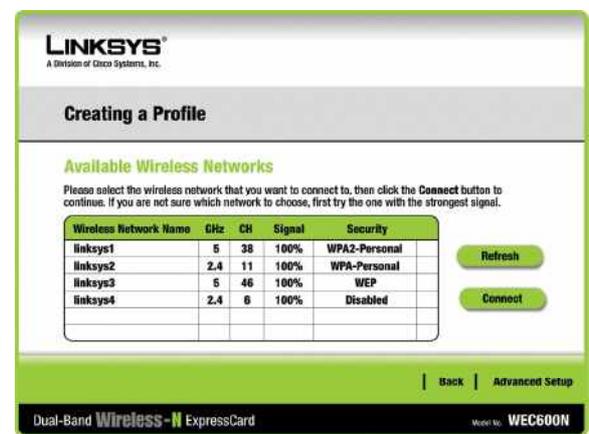

Delete Select the profile you want to delete and click **Delete**.

> **NOTE:** If you want to export more than one profile, you must export them one at a time.

Create a New Profile

The next screen is the *Available Wireless Networks* screen.

Available Wireless Networks

This screen provides two options for setting up the ExpressCard.

Available Wireless Networks (For most users) Use this option if you already have a network set up. The networks available to this ExpressCard are listed on this screen. You can choose one of these networks and click **Connect** to connect to it. Click **Refresh** to update the Available Wireless Networks list.

Advanced Setup If your network is not listed on this screen, select **Advanced Setup** to set up the ExpressCard manually. This method of setting up the ExpressCard is intended for advanced users only.

The setup for each option is described, step by step, under the appropriate heading on the following pages.

Available Wireless Networks

The available networks are listed in the table on the center of the screen by Wireless Network Name. Select the wireless network you wish to connect to and click **Connect**. (If you do not see your network listed, click **Refresh** to bring the list up again.) If the network uses wireless security, you will need to configure security on the ExpressCard. If not, you will be taken directly to the *Congratulations* screen.

1. If you have wireless security enabled on your network, continue to step 2. If you do not have wireless security enabled, continue to step 3.

2. If your network has WEP, WPA-Personal, or WPA2-Personal wireless security enabled, then that security screen appears. Continue to the screen for your wireless security.

WEP

If the network has WEP encryption enabled, then you see the *WEP Key Needed for Connection* screen.

WEP Security

WEP Select **64-bit** or **128-bit** encryption.

Passphrase Enter the network's Passphrase, so a WEP key is automatically generated. The passphrase is case-sensitive and must be 16 or fewer alphanumeric characters. It must match the passphrase of your other wireless network devices and is compatible with Linksys wireless products only. (For non-Linksys wireless products, enter the WEP key manually.)

WEP Key If you do not have the Passphrase, enter the WEP key, which must match the WEP key of your wireless network. For 64-bit encryption, enter exactly 10 hexadecimal characters ("0" to "9" and "A" to "F".) For 128-bit encryption, enter exactly 26 hexadecimal characters.

Click **Connect** and proceed to step 3.

WPA Personal

If the network has WPA Personal security enabled, then you see the *WPA Personal Needed for Connection* screen.

WPA-Personal Security

Encryption Select the type of algorithm you want to use, **TKIP** or **AES**.

Pre-shared Key Enter the network's Pre-shared Key of 8-63 characters.

Click **Connect** and proceed to step 3.

WPA2 Personal

If the network has WPA2 Personal security enabled, then you see the *WPA2 Personal Needed for Connection* screen.

WPA2-Personal Security

Pre-shared Key Enter the network's Pre-shared Key of 8-63 characters.

Click **Connect** and proceed to step 3.

3. After the profile installs, the *Congratulations* screen appears. Click **Finish**.

Congratulations

**Congratulations! The profile is successfully configured.**

Advanced Setup

If your network is not listed with the available networks, use Advanced Setup.

Available Wireless Networks

1. Click **Advanced Setup** on the *Available Wireless Networks* screen to set up the ExpressCard manually.

2. The Wireless Network Monitor's *Wireless Network* screen appears. Choose a network mode.

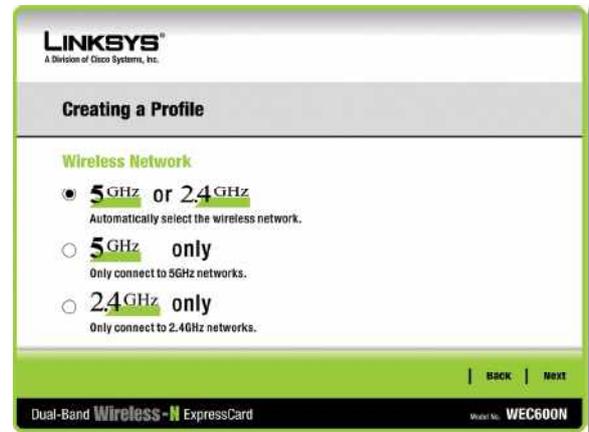

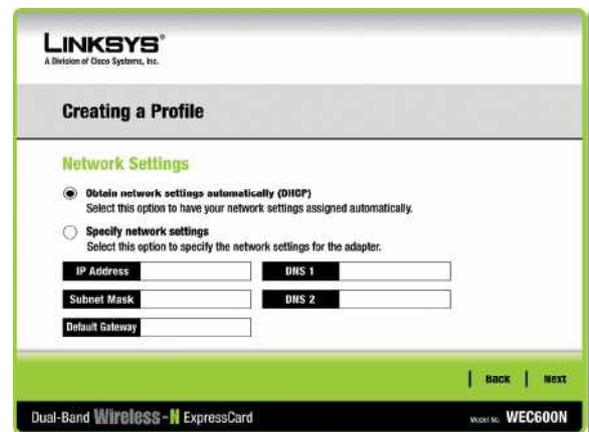

Wireless Network

- **5GHz or 2.4GHz** Select **5GHz or 2.4GHz** to connect to Wireless-A, Wireless-N, Wireless-G, or Wireless-B networks.

- **5GHz only** Select **5GHz only** to connect only to Wireless-A or Wireless-N networks.

- **2.4GHz only** Select **2.4GHz only** to connect only to Wireless-N, Wireless-G, or Wireless-B networks.

Click **Next** to continue, or click **Back** to return to the previous screen.

3. The *Network Settings* screen appears.

Wireless Network

If your network has a router or other DHCP server, select **Obtain network settings automatically (DHCP)**.

If your network does not have a DHCP server or router, select **Specify network settings**. Enter an IP Address, Subnet Mask, Default Gateway, and DNS addresses appropriate for your network. You must specify the IP Address and Subnet Mask on this screen. If you are unsure about the Default Gateway and DNS addresses, leave these fields blank.

- **IP Address** This IP Address must be unique to your network.

- **Subnet Mask** The ExpressCard's Subnet Mask must be the same as your wired network's Subnet Mask.

- **Default Gateway** Enter the IP address of your network's Gateway.

- **DNS 1 and DNS 2** Enter the DNS address of your wired Ethernet network.

Click **Next** to continue, or click **Back** to return to the previous screen.

4. The *Wireless Mode* screen shows a choice of two wireless modes.

Wireless Mode

- **Infrastructure Mode** Select this mode if you want to connect to a wireless router or access point.

- **Ad-Hoc Mode** Select this mode if you want to connect to another wireless device directly without using a wireless router or access point.

> NOTE: Ad-Hoc Mode is only available in non-Dynamic Frequency Selection (DFS) bands. (DFS bands are the ranges of 5.25.-5.35 GHz and 5.470-5.725 GHz.)

- **Wireless Network Name** Enter a wireless network name (SSID) that must be used for all devices in your wireless network. It is case-sensitive and should be a unique name to help prevent others from entering your network.

Click **Next** to continue, or click **Back** to return to the previous screen.

5. If you chose Infrastructure Mode, go to step 6 now. If you chose Ad-Hoc Mode, the *Ad-Hoc Mode Settings* screen appears.

Ad-Hoc Mode Settings

- **Standard Channel** Select the correct channel for your wireless network. The channel you choose should match the channel set on the other devices in your wireless network. If you are unsure about which channel to use, keep the default, **Auto**.

Click **Next** to continue, or click **Back** to return to the previous screen.

6. If your wireless network does not have wireless security, select **Disabled** and then click **Next** to continue. Proceed to step 7.

Wireless Security

If your wireless network has wireless security, select the method of security used: WEP, WPA Personal, WPA2 Personal, WPA Enterprise, WPA2 Enterprise, or RADIUS. WEP stands for Wired Equivalent Privacy, and WPA stands for Wi-Fi Protected Access. WPA2 stands for Wi-Fi Protected Access 2. WPA is a stronger security method than WEP. WPA2 is a stronger security method than WPA. RADIUS stands for Remote Authentication Dial-In User Service. Click **Next** to continue, or click **Back** to return to the previous screen.

Proceed to the section for your security method.

WEP

Make sure the settings you configure match the settings of your wireless network.

WEP

WEP Select **64-bit** or **128-bit** encryption.

Passphrase Enter the network's Passphrase, so a WEP key is automatically generated. It is case-sensitive and should not be longer than 16 alphanumeric characters. This passphrase must match the passphrase of your other wireless network devices and is compatible with Linksys wireless products only. (If you have any non-Linksys wireless products, enter the WEP key manually on those products.)

WEP Key If you do not have the Passphrase, enter the WEP key of your wireless network. For 64-bit encryption, enter exactly 10 hexadecimal characters. For 128-bit encryption, enter exactly 26 hexadecimal characters. Valid hexadecimal characters are "0" to "9" and "A" to "F".

Advanced Users

TX Key The default is **1**. If your network's wireless router or access point uses transmit key number 2, 3, or 4, select the appropriate number.

Authentication The default is **Auto**, so it will auto-detect for Shared Key or Open System authentication. For Shared Key authentication, both the sender and the recipient share a WEP key for authentication. For Open System authentication, the sender and the recipient do not share a WEP key for authentication. If you are not sure which authentication method to select, keep the default, **Auto**.

Click **Next** to continue, or click **Back** to return to the previous screen.

WPA Personal

WPA Personal offers two encryption methods, TKIP and AES, with dynamic encryption keys.

WPA Personal

Encryption Select **TKIP** or **AES.**

Pre-shared Key Enter the network's Pre-shared Key of 8-63 characters.

Click **Next** to continue, or click **Back** to return to the previous screen.

WPA2 Personal

WPA2 Personal uses the encryption method, AES, with dynamic encryption keys.

WPA2 Personal

Pre-shared Key Enter the network's Pre-shared Key of 8-63 characters.

Click **Next** to continue, or click **Back** to return to the previous screen.

WPA Enterprise

WPA Enterprise features WPA security used in coordination with a RADIUS server. (This should only be used when a RADIUS server is connected to the Router.) WPA Enterprise offers two authentication methods, EAP-TLS and PEAP,

as well as two encryption methods, TKIP and AES, with dynamic encryption keys.

Authentication Select the authentication method your network is using, **EAP-TLS** or **PEAP**.

EAP-TLS

WPA Enterprise - EAP-TLS

If you selected EAP-TLS, configure the following:

Login Name Enter the login name of your wireless network.

Server Name Enter the name of the authentication server (this is optional).

Certificate Select the certificate you installed to authenticate you on your wireless network.

Encryption Select the type of encryption, **TKIP** or **AES**.

Click **Next** to continue, or click **Back** to return to the previous screen.

PEAP

WPA Enterprise - PEAP

If you selected PEAP, configure the following:

Login Name Enter the login name of your wireless network.

Password Enter the password of your wireless network.

Server Name Enter the name of the authentication server (this is optional).

Certificate Select the certificate you installed to authenticate you on your wireless network. If you want to use any certificate, keep the default, **Trust Any**.

Inner Authen. Select the authentication method used inside the PEAP tunnel.

Encryption Select the type of encryption, **TKIP** or **AES**.

Click **Next** to continue, or click **Back** to return to the previous screen.

WPA2 Enterprise

WPA2 Enterprise features WPA2 security used in coordination with a RADIUS server. (This should only be used when a RADIUS server is connected to the Router.) WPA2 Enterprise offers two authentication methods, EAP-TLS and PEAP.

Authentication Select the authentication method your network is using, **EAP-TLS** or **PEAP**.

EAP-TLS

WPA2 Enterprise - EAP-TLS

If you selected EAP-TLS, configure the following:

Login Name Enter the login name of your wireless network.

Server Name Enter the name of the authentication server (this is optional).

Certificate Select the certificate you installed to authenticate you on your wireless network.

Click **Next** to continue, or click **Back** to return to the previous screen.

PEAP

WPA2 Enterprise - PEAP

If you selected PEAP, configure the following:

Login Name Enter the login name of your wireless network.

Password Enter the password of your wireless network.

Server Name Enter the name of the authentication server (this is optional).

Certificate Select the certificate you installed to authenticate you on your wireless network. If you want to use any certificate, keep the default, **Trust Any.**

Inner Authen. Select the authentication method used inside the PEAP tunnel.

Click **Next** to continue, or click **Back** to return to the previous screen.

RADIUS

RADIUS features use of a RADIUS server. (This should only be used when a RADIUS server is connected to the Router.) RADIUS offers two authentication types: EAP-TLS and PEAP.

Authentication Select the authentication method your network is using, **EAP-TLS** or **PEAP.**

EAP-TLS

RADIUS - EAP-TLS

If you selected EAP-TLS, configure the following:

Login Name Enter the login name of your wireless network.

Server Name Enter the name of the authentication server (this is optional).

Certificate Select the certificate you installed to authenticate you on your wireless network.

Click **Next** to continue, or click **Back** to return to the previous screen.

PEAP

RADIUS - PEAP

If you selected PEAP, configure the following:

Login Name Enter the login name of your wireless network.

Password Enter the password of your wireless network.

Server Name Enter the name of the authentication server (this is optional).

Certificate Select the certificate you installed to authenticate you on your wireless network. If you want to use any certificate, keep the default, **Trust Any.**

Inner Authen. Select the authentication method used inside the PEAP tunnel.

Click **Next** to continue, or click **Back** to return to the previous screen.

7. The *Confirm New Settings* screen appears and shows the new settings.

Confirm New Settings

To save the new settings, click **Save**. To edit the new settings, click **Back**. To exit Advanced Setup through the Wireless Network Monitor, click **Exit**.

8. The *Congratulations* screen appears. Click **Connect to Network** to implement the new settings immediately and return to the *Link Information* screen. Click **Return to Profiles screen** to keep the current settings active and return to the *Profiles* screen.

Congratulations

Congratulations! The profile is successfully configured.

Appendix A:
Troubleshooting

Your computer does not recognize the ExpressCard.

Make sure that the ExpressCard is properly inserted into the ExpressCard slot.

The ExpressCard does not work properly.

Remove the ExpressCard, and then reinsert it into the computer's ExpressCard slot.

Your computer cannot communicate with the other computers linked via Ethernet in the Infrastructure configuration.

1. Make sure that the computers are powered on.
2. Make sure that the ExpressCard is configured with the same Wireless Network Name (SSID) and wireless security settings as the other wireless computers in the Infrastructure configuration.

WEB: If your questions are not addressed here, refer to the Linksys website, **www.linksys.com**

Appendix B: Windows XP Wireless Zero Configuration

Windows XP Wireless Zero Configuration

If your computer is running Windows XP, then this choice will be available. If you want to use Windows XP Wireless Zero Configuration to control the ExpressCard, instead of using the Wireless Network Monitor, then right-click the Wireless Network Monitor icon, and select **Use Windows XP Wireless Configuration**.

NOTE: If you have WPA2 wireless security, refer to Update for Windows XP (KB893357) on the microsoft.com website to be able to connect correctly.

Wireless Network Monitor Icon
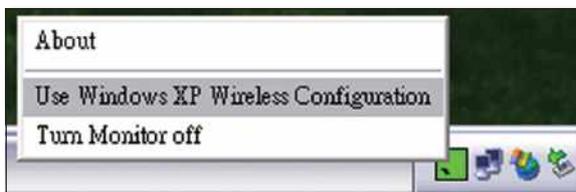

Use Windows XP Wireless Configuration

If you want to switch back to the Wireless Network Monitor, right-click the Wireless Network Monitor icon, and select **Use Linksys Wireless Network Monitor**.
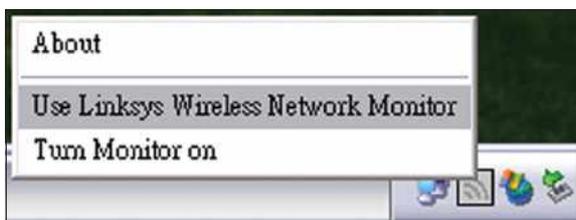

Use Linksys Wireless Network Monitor

NOTE: For more information on Windows XP Wireless Zero Configuration, refer to Windows Help.

1. After installing the ExpressCard, the Windows XP Wireless Zero Configuration icon appears in your computer's system tray. Double-click the icon.

Windows XP Wireless Zero Configuration Icon

2. The screen that appears will show any available wireless network. Select the network you want. Click **Connect**.

   If your network does not have wireless security enabled, go to step 3.

   If your network does have wireless security enabled, go to step 4.

   NOTE: Steps 2 and 3 are for Windows XP with Service Pack 2 installed.
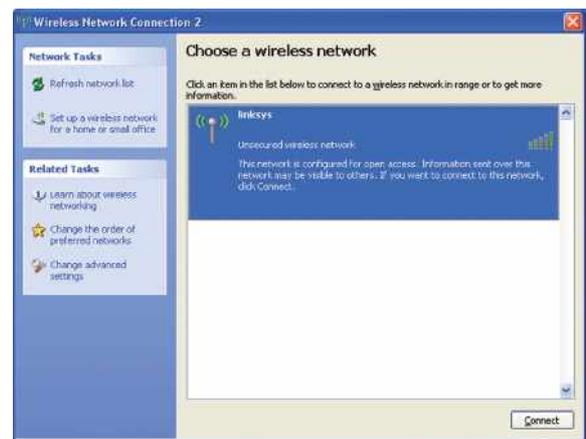

Available Wireless Network

3. If your network does not have wireless security enabled, click **Connect Anyway** to connect the ExpressCard to your network.

No Wireless Security

4. If your network uses WEP wireless security, enter the WEP Key in the *Network Key* and *Confirm network key* fields. If your network uses WPA Personal wireless security, enter the Passphrase in the *Network Key* and *Confirm network key* fields. Click **Connect**.
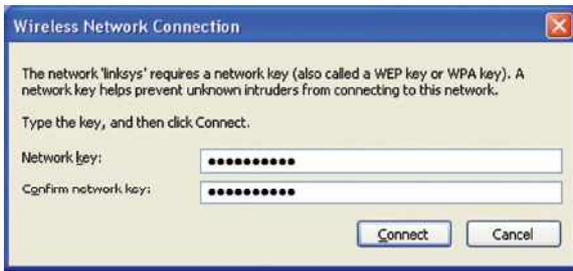

Wireless Security

NOTE: Windows XP Wireless Zero Configuration does not support the use of a passphrase. Enter the exact WEP key used by your wireless router or access point.

5. Your wireless network will appear as Connected when your connection is active.

Wireless Network Connection

For more information about wireless networking on a Windows XP computer, click **Start** > **Help** > **Support**. Enter the keyword **wireless** in the field provided, and press the **Enter** key.

Your computer is now connected to your wireless network.

Appendix C:
Specifications

Model	WEC600N
Standards	Draft IEEE 802.11n, IEEE 802.11g, IEEE 802.11b, IEEE 802.11a
LEDs	Power, Link/Act
# of Antennas	2 Antennas
Detachable (Y/N)	No
Modulations	802.11a: OFDM 802.11b: CCK, QPSK, BPSK 802.11g: OFDM 802.11n: BPSK, QPSK, 16-QAM, 64-QAM
RF Power (EIRP) in dBm	802.11a: 13 dBm 802.11b: 16 dBm 802.11g: 14 dBm 802.11n: 13.5 dBm, at 2.4 GHz 802.11n: 11 dBm, at 5.0 GHz
Receive Sensitivity in dBm	802.11a: -65 dBm, at 54 Mbps 802.11b: -87 dBm, at 11 Mbps 802.11g: -70 dBm, at 54 Mbps 802.11n: -61 dBm, at 270 Mbps
Antenna Gain in dBi	2.4 dBi, at 2.4 GHz 1 dBi, at 5.0 GHz
Power Consumption	Active: <800mA (TX), <600mA (RX) Standby: <120mA
Security features	WEP, Wi-Fi Protected Access™ 2 (WPA2)
Security Key Bits	Up to 256-Bit Encryption
OS Requirements	Up-to-date Windows 2000, XP or Vista

Environmental

Dimensions	1.34" x 0.35" x 4.25" (34 x 9 x 108 mm)
Weight	0.88 oz (25 g)
Certification	FCC, CE
Operating Temp.	32 to 122°F (0 to 50°C)
Storage Temp.	-13 to 158°F (–25 to 70°C)
Operating Humidity	10 to 80%
Storage Humidity	5 to 90%

Appendix D:
Warranty Information

Limited Warranty

Linksys warrants to You that, for a period of one year (the "Warranty Period"), your Linksys Product will be substantially free of defects in materials and workmanship under normal use. Your exclusive remedy and Linksys' entire liability under this warranty will be for Linksys at its option to repair or replace the Product or refund Your purchase price less any rebates. This limited warranty extends only to the original purchaser.

If the Product proves defective during the Warranty Period call Linksys Technical Support in order to obtain a Return Authorization Number, if applicable. BE SURE TO HAVE YOUR PROOF OF PURCHASE ON HAND WHEN CALLING. If You are requested to return the Product, mark the Return Authorization Number clearly on the outside of the package and include a copy of your original proof of purchase. RETURN REQUESTS CANNOT BE PROCESSED WITHOUT PROOF OF PURCHASE. You are responsible for shipping defective Products to Linksys. Linksys pays for UPS Ground shipping from Linksys back to You only. Customers located outside of the United States of America and Canada are responsible for all shipping and handling charges.

ALL IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE ARE LIMITED TO THE DURATION OF THE WARRANTY PERIOD. ALL OTHER EXPRESS OR IMPLIED CONDITIONS, REPRESENTATIONS AND WARRANTIES, INCLUDING ANY IMPLIED WARRANTY OF NON-INFRINGEMENT, ARE DISCLAIMED. Some jurisdictions do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to You. This warranty gives You specific legal rights, and You may also have other rights which vary by jurisdiction.

This warranty does not apply if the Product (a) has been altered, except by Linksys, (b) has not been installed, operated, repaired, or maintained in accordance with instructions supplied by Linksys, or (c) has been subjected to abnormal physical or electrical stress, misuse, negligence, or accident. In addition, due to the continual development of new techniques for intruding upon and attacking networks, Linksys does not warrant that the Product will be free of vulnerability to intrusion or attack.

TO THE EXTENT NOT PROHIBITED BY LAW, IN NO EVENT WILL LINKSYS BE LIABLE FOR ANY LOST DATA, REVENUE OR PROFIT, OR FOR SPECIAL, INDIRECT, CONSEQUENTIAL, INCIDENTAL OR PUNITIVE DAMAGES, REGARDLESS OF THE THEORY OF LIABILITY (INCLUDING NEGLIGENCE), ARISING OUT OF OR RELATED TO THE USE OF OR INABILITY TO USE THE PRODUCT (INCLUDING ANY SOFTWARE), EVEN IF LINKSYS HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. IN NO EVENT WILL LINKSYS' LIABILITY EXCEED THE AMOUNT PAID BY YOU FOR THE PRODUCT. The foregoing limitations will apply even if any warranty or remedy provided under this Agreement fails of its essential purpose. Some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to You.

Please direct all inquiries to: Linksys, P.O. Box 18558, Irvine, CA 92623.

Appendix E: Regulatory Information

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This product has been tested and complies with the specifications for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used according to the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which is found by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment or devices
- Connect the equipment to an outlet other than the receiver's
- Consult a dealer or an experienced radio/TV technician for assistance

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

For operation within the 5.15 ~ 5.25GHz frequency range, it is restricted to indoor environments.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance. To maintain compliance with FCC RF exposure compliance requirements, please follow operation instruction as documented in this manual.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Specific Absorption Rate (SAR) compliance has been established in typical notebook computer(s) with ExpressCard slot, and product could be used in a typical notebook computer with ExpressCard slot. Other application like handheld PC or similar device has not been verified and may not comply with related RF exposure rule, and such use shall be prohibited.

The availability of some specific channels and/or operational frequency bands is country dependent and programmed at the factory to match the intended destination. This setting is not accessible by the end user.

Safety Notices

- Caution: To reduce the risk of fire, use only No.26 AWG or larger telecommunication line cord.
- Do not use this product near water, for example, in a wet basement or near a swimming pool.
- Avoid using this product during an electrical storm. There may be a remote risk of electric shock from lightning.

WARNING: This product contains lead, known to the State of California to cause cancer, and birth defects or other reproductive harm. Wash hands after handling.

Wireless Disclaimer

The maximum performance for wireless is derived from IEEE Standard 802.11 specifications. Actual performance can vary, including lower wireless network capacity, data throughput rate, range and coverage. Performance depends on many factors, conditions and variables, including distance from the access point, volume of network traffic, building materials and construction, operating system used, mix of wireless products used, interference and other adverse conditions.

User Information for Consumer Products Covered by EU Directive 2002/96/EC on Waste Electric and Electronic Equipment (WEEE)

This document contains important information for users with regards to the proper disposal and recycling of Linksys products. Consumers are required to comply with this notice for all electronic products bearing the following symbol:

English - Environmental Information for Customers in the European Union

European Directive 2002/96/EC requires that the equipment bearing this symbol ⌧ on the product and/or its packaging must not be disposed of with unsorted municipal waste. The symbol indicates that this product should be disposed of separately from regular household waste streams. It is your responsibility to dispose of this and other electric and electronic equipment via designated collection facilities appointed by the government or local authorities. Correct disposal and recycling will help prevent potential negative consequences to the environment and human health. For more detailed information about the disposal of your old equipment, please contact your local authorities, waste disposal service, or the shop where you purchased the product.

Български (Bulgarian) - Информация относно опазването на околната среда за потребители в Европейския съюз

Европейска директива 2002/96/EC изисква уредите, носещи този символ ⌧ върху изделието и/или опаковката му, да не се изхвърля т с несортирани битови отпадъци. Символът обозначава, че изделието трябва да се изхвърля отделно от сметосъбирането на обикновените битови отпадъци. Ваша е отговорността този и другите електрически и електронни уреди да се изхвърлят в предварително определени от държавните или общински органи специализирани пунктове за събиране. Правилното изхвърляне и рециклиране ще спомогнат да се предотвратят евентуални вредни за околната среда и здравето на населението последствия. За по-подробна информация относно изхвърлянето на вашите стари уреди се обърнете към местните власти, службите за сметосъбиране или магазина, от който сте закупили уреда.

Čeština (Czech) - Informace o ochraně životního prostředí pro zákazníky v zemích Evropské unie

Evropská směrnice 2002/96/ES zakazuje, aby zařízení označené tímto symbolem ⌧ na produktu anebo na obalu bylo likvidováno s netříděným komunálním odpadem. Tento symbol udává, že daný produkt musí být likvidován odděleně od běžného komunálního odpadu. Odpovídáte za likvidaci tohoto produktu a dalších elektrických a elektronických zařízení prostřednictvím určených sběrných míst stanovených vládou nebo místními úřady. Správná likvidace a recyklace pomáhá předcházet potenciálním negativním dopadům na životní prostředí a lidské zdraví. Podrobnější informace o likvidaci starého vybavení si laskavě vyžádejte od místních úřadů, podniku zabývajícího se likvidací komunálních odpadů nebo obchodu, kde jste produkt zakoupili.

Dansk (Danish) - Miljøinformation for kunder i EU

EU-direktiv 2002/96/EF kræver, at udstyr der bærer dette symbol ⌧ på produktet og/eller emballagen ikke må bortskaffes som usorteret kommunalt affald. Symbolet betyder, at dette produkt skal bortskaffes adskilt fra det almindelige husholdningsaffald. Det er dit ansvar at bortskaffe dette og andet elektrisk og elektronisk udstyr via bestemte indsamlingssteder udpeget af staten eller de lokale myndigheder. Korrekt bortskaffelse og genvinding vil hjælpe med til at undgå mulige skader for miljøet og menneskers sundhed. Kontakt venligst de lokale myndigheder, renovationstjenesten eller den butik, hvor du har købt produktet, angående mere detaljeret information om bortskaffelse af dit gamle udstyr.

Deutsch (German) - Umweltinformation für Kunden innerhalb der Europäischen Union

Die Europäische Richtlinie 2002/96/EC verlangt, dass technische Ausrüstung, die direkt am Gerät und/oder an der Verpackung mit diesem Symbol versehen ist ⌧, nicht zusammen mit unsortiertem Gemeindeabfall entsorgt werden darf. Das Symbol weist darauf hin, dass das Produkt von regulärem Haushaltmüll getrennt entsorgt werden sollte. Es liegt in Ihrer Verantwortung, dieses Gerät und andere elektrische und elektronische Geräte über die dafür zuständigen und von der Regierung oder örtlichen Behörden dazu bestimmten Sammelstellen zu entsorgen. Ordnungsgemäßes Entsorgen und Recyceln trägt dazu bei, potentielle negative Folgen für Umwelt und die menschliche Gesundheit zu vermeiden. Wenn Sie weitere Informationen zur Entsorgung Ihrer Altgeräte benötigen, wenden Sie sich bitte an die örtlichen Behörden oder städtischen Entsorgungsdienste oder an den Händler, bei dem Sie das Produkt erworben haben.

Eesti (Estonian) - Keskkonnaalane Informatsioon Euroopa Liidus asuvatele klientidele

Euroopa Liidu direktiivi 2002/96/EÜ nõuete kohaselt on seadmeid, millel on tootel või pakendil käesolev sümbol ⚠, keelatud kõrvaldada koos sorteerimata olmejäätmetega. See sümbol näitab, et toode tuleks kõrvaldada eraldi tavalistest olmejäätmevoogudest. Olete kohustatud kõrvaldama käesoleva ja ka muud elektri- ja elektroonikaseadmed riigi või kohalike ametiasutuste poolt ette nähtud kogumispunktide kaudu. Seadmete korrektne kõrvaldamine ja ringlussevõtt aitab vältida võimalikke negatiivseid tagajärgi keskkonnale ning inimeste tervisele. Vanade seadmete kõrvaldamise kohta täpsema informatsiooni saamiseks võtke palun ühendust kohalike ametiasutustega, jäätmekäitlusfirmaga või kauplusega, kust te toote ostsite.

Español (Spanish) - Información medioambiental para clientes de la Unión Europea

La Directiva 2002/96/CE de la UE exige que los equipos que lleven este símbolo ⚠ en el propio aparato y/o en su embalaje no deben eliminarse junto con otros residuos urbanos no seleccionados. El símbolo indica que el producto en cuestión debe separarse de los residuos domésticos convencionales con vistas a su eliminación. Es responsabilidad suya desechar este y cualesquiera otros aparatos eléctricos y electrónicos a través de los puntos de recogida que ponen a su disposición el gobierno y las autoridades locales. Al desechar y reciclar correctamente estos aparatos estará contribuyendo a evitar posibles consecuencias negativas para el medio ambiente y la salud de las personas. Si desea obtener información más detallada sobre la eliminación segura de su aparato usado, consulte a las autoridades locales, al servicio de recogida y eliminación de residuos de su zona o pregunte en la tienda donde adquirió el producto.

Ελληνικά (Greek) - Στοιχεία περιβαλλοντικής προστασίας για πελάτες εντός της Ευρωπαϊκής Ένωσης

Η Κοινοτική Οδηγία 2002/96/EC απαιτεί ότι ο εξοπλισμός ο οποίος φέρει αυτό το σύμβολο ⚠ στο προϊόν και/ή στη συσκευασία του δεν πρέπει να απορρίπτεται μαζί με τα μικτά κοινοτικά απορρίμματα. Το σύμβολο υποδεικνύει ότι αυτό το προϊόν θα πρέπει να απορρίπτεται ξεχωριστά από τα συνήθη οικιακά απορρίμματα. Είστε υπεύθυνος για την απόρριψη του παρόντος και άλλου ηλεκτρικού και ηλεκτρονικού εξοπλισμού μέσω των καθορισμένων εγκαταστάσεων συγκέντρωσης απορριμμάτων οι οποίες παρέχονται από το κράτος ή τις αρμόδιες τοπικές αρχές. Η σωστή απόρριψη και ανακύκλωση συμβάλλει στην πρόληψη πιθανών αρνητικών συνεπειών για το περιβάλλον και την υγεία. Για περισσότερες πληροφορίες σχετικά με την απόρριψη του παλιού σας εξοπλισμού, παρακαλώ επικοινωνήστε με τις τοπικές αρχές, τις υπηρεσίες απόρριψης ή το κατάστημα από το οποίο αγοράσατε το προϊόν.

Français (French) - Informations environnementales pour les clients de l'Union européenne

La directive européenne 2002/96/CE exige que l'équipement sur lequel est apposé ce symbole ⚠ sur le produit et/ou son emballage ne soit pas jeté avec les autres ordures ménagères. Ce symbole indique que le produit doit être éliminé dans un circuit distinct de celui pour les déchets des ménages. Il est de votre responsabilité de jeter ce matériel ainsi que tout autre matériel électrique ou électronique par les moyens de collecte indiqués par le gouvernement et les pouvoirs publics des collectivités territoriales. L'élimination et le recyclage en bonne et due forme ont pour but de lutter contre l'impact néfaste potentiel de ce type de produits sur l'environnement et la santé publique. Pour plus d'informations sur le mode d'élimination de votre ancien équipement, veuillez prendre contact avec les pouvoirs publics locaux, le service de traitement des déchets, ou l'endroit où vous avez acheté le produit.

Italiano (Italian) - Informazioni relative all'ambiente per i clienti residenti nell'Unione Europea

La direttiva europea 2002/96/EC richiede che le apparecchiature contrassegnate con questo simbolo ⚠ sul prodotto e/o sull'imballaggio non siano smaltite insieme ai rifiuti urbani non differenziati. Il simbolo indica che questo prodotto non deve essere smaltito insieme ai normali rifiuti domestici. È responsabilità del proprietario smaltire sia questi prodotti sia le altre apparecchiature elettriche ed elettroniche mediante le specifiche strutture di raccolta indicate dal governo o dagli enti pubblici locali. Il corretto smaltimento ed il riciclaggio aiuteranno a prevenire conseguenze potenzialmente negative per l'ambiente e per la salute dell'essere umano. Per ricevere informazioni più dettagliate circa lo smaltimento delle vecchie apparecchiature in Vostro possesso, Vi invitiamo a contattare gli enti pubblici di competenza, il servizio di smaltimento rifiuti o il negozio nel quale avete acquistato il prodotto.

Latviešu valoda (Latvian) - Ekoloģiska Informācija klientiem Eiropas Savienības Jurisdikcijā

Direktīvā 2002/96/EK ir prasība, ka aprīkojumu, kam pievienota zīme ⚠ uz paša izstrādājuma vai uz tā iesaiņojuma, nedrīkst izmest neškirotā veidā kopā ar komunālajiem atkritumiem (tiem, ko rada vietēji iedzīvotāji un uzņēmumi). Šī zīme nozīmē to, ka šī ierīce ir jāizmet atkritumos tā, lai tā nenonāktu kopā ar parastiem mājsaimniecības atkritumiem. Jūsu pienākums ir šo un citas elektriskas un elektroniskas ierīces izmest atkritumos, izmantojot īpašus atkritumu savākšanas veidus un līdzekļus, ko nodrošina valsts un pašvaldību iestādes. Ja izmešana atkritumos un pārstrāde tiek veikta pareizi, tad mazinās iespējamais kaitējums dabai un cilvēku veselībai. Sīkākas ziņas par novecojuša aprīkojuma izmešanu atkritumos jūs varat saņemt vietējā pašvaldībā, atkritumu savākšanas dienestā, kā arī veikalā, kur iegādājāties šo izstrādājumu.

Lietuvškai (Lithuanian) - Aplinkosaugos informacija, skirta Europos Sąjungos vartotojams

Europos direktyva 2002/96/EC numato, kad įrangos, kuri ir kurios pakuotė yra pažymėta šiuo simboliu (įveskite simbolį), negalima šalinti kartu su nerūšiuotomis komunalinėmis atliekomis. Šis simbolis rodo, kad gaminį reikia šalinti atskirai nuo bendro buitinių atliekų srauto. Jūs privalote užtikrinti, kad ši ir kita elektros ar elektroninė įranga būtų šalinama per tam tikras nacionalinės ar vietinės valdžios nustatytas atliekų rinkimo sistemas. Tinkamai šalinant ir perdirbant atliekas, bus išvengta galimos žalos aplinkai ir žmonių sveikatai. Daugiau informacijos apie jūsų senos įrangos šalinimą gali pateikti vietinės valdžios institucijos, atliekų šalinimo tarnybos arba parduotuvės, kuriose įsigijote tą gaminį.

Malti (Maltese) - Informazzjoni Ambjentali għal Klijenti fl-Unjoni Ewropea

Id-Direttiva Ewropea 2002/96/KE titlob li t-tagħmir li jkun fih is-simbolu fuq il-prodott u/jew fuq l-ippakkjar ma jistax jintrema ma' skart municipali li ma ġiex issseparat. Is-simbolu jindika li dan il-prodott għandu jintrema separatament minn ma' l-iskart domestiku regolari. Hija responsabbiltà tiegħek li tarmi dan it-tagħmir u kull tagħmir ieħor ta' l-elettriku u elettroniku permezz ta' facilitajiet ta' ġbir appuntati apposta mill-gvern jew mill-awtoritajiet lokali. Ir-rimi b'mod korrett u r-riciklaġġ jgħin jipprevjeni konsegwenzi negattivi potenzjali għall-ambjent u għas-saħħa tal-bniedem. Għal aktar informazzjoni dettaljata dwar ir-rimi tat-tagħmir antik tiegħek, jekk jogħġbok ikkuntattja lill-awtoritajiet lokali tiegħek, is-servizzi għar-rimi ta' l-iskart, jew il-ħanut minn fejn xtrajt il-prodott.

Magyar (Hungarian) - Környezetvédelmi információ az európai uniós vásárlók számára

A 2002/96/EC számú európai uniós irányelv megkívánja, hogy azokat a termékeket, amelyeken, és/vagy amelyek csomagolásán az alábbi címke megjelenik, tilos a többi szelektálatlan lakossági hulladékkal együtt kidobni. A címke azt jelöli, hogy az adott termék kidobásakor a szokványos háztartási hulladékelszállítási rendszerektől elkülönített eljárást kell alkalmazni. Az Ön felelőssége, hogy ezt, és más elektromos és elektronikus berendezéseit a kormányzati vagy a helyi hatóságok által kijelölt gyűjtőredszereken keresztül számolja fel. A megfelelő hulladékfeldolgozás segíti a környezetre és az emberi egészségre potenciálisan ártalmas negatív hatások megelőzésében. Ha elavult berendezéseinek felszámolásához további részletes információra van szüksége, kérjük, lépjen kapcsolatba a helyi hatóságokkal, a hulladékfeldolgozási szolgálattal, vagy azzal az üzlettel, ahol a terméket vásárolta.

Nederlands (Dutch) - Milieu-informatie voor klanten in de Europese Unie

De Europese Richtlijn 2002/96/EC schrijft voor dat apparatuur die is voorzien van dit symbool op het product of de verpakking, niet mag worden ingezameld met niet-gescheiden huishoudelijk afval. Dit symbool geeft aan dat het product apart moet worden ingezameld. U bent zelf verantwoordelijk voor de vernietiging van deze en andere elektrische en elektronische apparatuur via de daarvoor door de landelijke of plaatselijke overheid aangewezen inzamelingskanalen. De juiste vernietiging en recycling van deze apparatuur voorkomt mogelijke negatieve gevolgen voor het milieu en de gezondheid. Voor meer informatie over het vernietigen van uw oude apparatuur neemt u contact op met de plaatselijke autoriteiten of afvalverwerkingsdienst, of met de winkel waar u het product hebt aangeschaft.

Norsk (Norwegian) - Miljøinformasjon for kunder i EU

EU-direktiv 2002/96/EF krever at utstyr med følgende symbol avbildet på produktet og/eller pakningen, ikke må kastes sammen med usortert avfall. Symbolet indikerer at dette produktet skal håndteres atskilt fra ordinær avfallsinnsamling for husholdningsavfall. Det er ditt ansvar å kvitte deg med dette produktet og annet elektrisk og elektronisk avfall via egne innsamlingsordninger slik myndighetene eller kommunene bestemmer. Korrekt avfallshåndtering og gjenvinning vil være med på å forhindre mulige negative konsekvenser for miljø og helse. For nærmere informasjon om håndtering av det kasserte utstyret ditt, kan du ta kontakt med kommunen, en innsamlingsstasjon for avfall eller butikken der du kjøpte produktet.

Polski (Polish) - Informacja dla klientów w Unii Europejskiej o przepisach dotyczących ochrony środowiska

Dyrektywa Europejska 2002/96/EC wymaga, aby sprzęt oznaczony symbolem znajdującym się na produkcie i/lub jego opakowaniu nie był wyrzucany razem z innymi niesortowanymi odpadami komunalnymi. Symbol ten wskazuje, że produkt nie powinien być usuwany razem ze zwykłymi odpadami z gospodarstw domowych. Na Państwu spoczywa obowiązek wyrzucania tego i innych urządzeń elektrycznych oraz elektronicznych w punktach odbioru wyznaczonych przez władze krajowe lub lokalne. Pozbywanie się sprzętu we właściwy sposób i jego recykling pomogą zapobiec potencjalnie negatywnym konsekwencjom dla środowiska i zdrowia ludzkiego. W celu uzyskania szczegółowych informacji o usuwaniu starego sprzętu, prosimy zwrócić się do lokalnych władz, służb oczyszczania miasta lub sklepu, w którym produkt został nabyty.

Português (Portuguese) - Informação ambiental para clientes da União Europeia

A Directiva Europeia 2002/96/CE exige que o equipamento que exibe este símbolo no produto e/ou na sua embalagem não seja eliminado junto com os resíduos municipais não separados. O símbolo indica que este produto deve ser eliminado separadamente dos resíduos domésticos regulares. É da sua responsabilidade eliminar este e qualquer outro equipamento eléctrico e electrónico através das instalações de recolha designadas pelas autoridades governamentais ou locais. A eliminação e reciclagem correctas ajudarão a prevenir as consequências negativas para o ambiente e para a saúde humana. Para obter informações mais detalhadas sobre a forma de eliminar o seu equipamento antigo, contacte as autoridades locais, os serviços de eliminação de resíduos ou o estabelecimento comercial onde adquiriu o produto.

Română (Romanian) - Informaţii de mediu pentru clienţii din Uniunea Europeană

Directiva europeană 2002/96/CE impune ca echipamentele care prezintă acest simbol pe produs şi/sau pe ambalajul acestuia să nu fie casate împreună cu gunoiul menajer municipal. Simbolul indică faptul că acest produs trebuie să fie casat separat de gunoiul menajer obişnuit. Este responsabilitatea dvs. să casaţi acest produs şi alte echipamente electrice şi electronice prin intermediul unităţilor de colectare special desemnate de guvern sau de autorităţile locale. Casarea şi reciclarea corecte vor ajuta la prevenirea potenţialelor consecinţe negative asupra sănătăţii mediului şi a oamenilor. Pentru mai multe informaţii detaliate cu privire la casarea acestui echipament vechi, contactaţi autorităţile locale, serviciul de salubrizare sau magazinul de la care aţi achiziţionat produsul.

Slovenčina (Slovak) - Informácie o ochrane životného prostredia pre zákazníkov v Európskej únii

Podľa európskej smernice 2002/96/ES zariadenie s týmto symbolom na produkte a/alebo jeho balení nesmie byť likvidované spolu s netriedeným komunálnym odpadom. Symbol znamená, že produkt by sa mal likvidovať oddelene od bežného odpadu z domácností. Je vašou povinnosťou likvidovať toto i ostatné elektrické a elektronické zariadenia prostredníctvom špecializovaných zberných zariadení určených vládou alebo miestnymi orgánmi. Správna likvidácia a recyklácia pomôže zabrániť prípadným negatívnym dopadom na životné prostredie a zdravie ľudí. Ak máte záujem o podrobnejšie informácie o likvidácii starého zariadenia, obráťte sa, prosím, na miestne orgány, organizácie zaoberajúce sa likvidáciou odpadov alebo obchod, v ktorom ste si produkt zakúpili.

Slovenščina (Slovene) - Okoljske informacije za stranke v Evropski uniji

Evropska direktiva 2002/96/EC prepoveduje odlaganje opreme, označene s tem simbolom – na izdelku in/ali na embalaži – med običajne, nerazvrščene odpadke. Ta simbol opozarja, da je treba izdelek odvreči ločeno od preostalih gospodinjskih odpadkov. Vaša odgovornost je, da to in preostalo električno in elektronsko opremo odnesete na posebna zbirališča, ki jih določijo državne ustanove ali lokalna uprava. S pravilnim odlaganjem in recikliranjem boste preprečili morebitne škodljive vplive na okolje in zdravje ljudi. Če želite izvedeti več o odlaganju stare opreme, se obrnite na lokalno upravo, odpad ali trgovino, kjer ste izdelek kupili.

Suomi (Finnish) - Ympäristöä koskevia tietoja EU-alueen asiakkaille

EU-direktiivi 2002/96/EY edellyttää, että jos laitteistossa on tämä symboli itse tuotteessa ja/tai sen pakkauksessa, laitteistoa ei saa hävittää lajittelemattoman yhdyskuntajätteen mukana. Symboli merkitsee sitä, että tämä tuote on hävitettävä erillään tavallisesta kotitalousjätteestä. Sinun vastuullasi on hävittää tämä elektroniikkatuote ja muut vastaavat elektroniikkatuotteet viemällä tuote tai tuotteet viranomaisten määräämään keräyspisteeseen. Laitteiston oikea hävittäminen estää mahdolliset kielteiset vaikutukset ympäristöön ja ihmisten terveyteen. Lisätietoja vanhan laitteiston oikeasta hävitystavasta saa paikallisilta viranomaisilta, jätteenhävityspalvelusta tai siitä myymälästä, josta ostit tuotteen.

Svenska (Swedish) - Miljöinformation för kunder i Europeiska unionen

Det europeiska direktivet 2002/96/EC kräver att utrustning med denna symbol på produkten och/eller förpackningen inte får kastas med osorterat kommunalt avfall. Symbolen visar att denna produkt bör kastas efter att den avskiljts från vanligt hushållsavfall. Det faller på ditt ansvar att kasta denna och annan elektrisk och elektronisk utrustning på fastställda insamlingsplatser utsedda av regeringen eller lokala myndigheter. Korrekt kassering och återvinning skyddar mot eventuella negativa konsekvenser för miljön och personhälsa. För mer detaljerad information om kassering av din gamla utrustning kontaktar du dina lokala myndigheter, avfallshanteringen eller butiken där du köpte produkten.
