# **SYMBOL MT2000 Series** Quick Start Guide

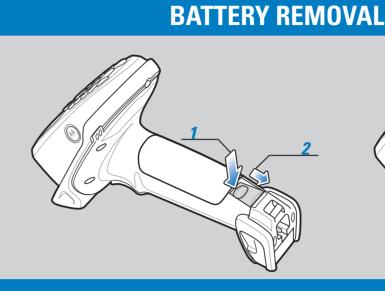

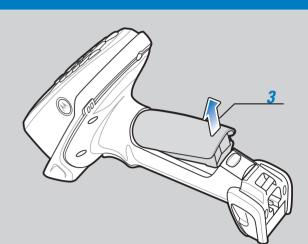

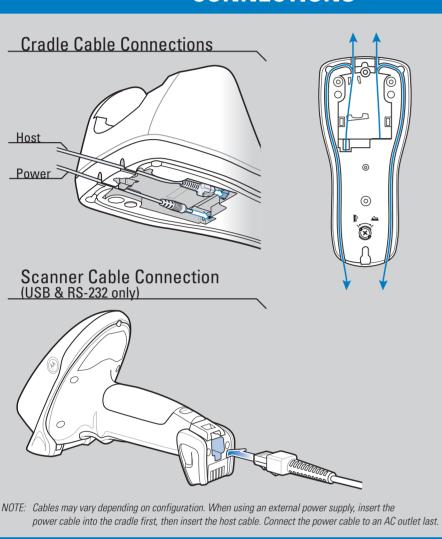

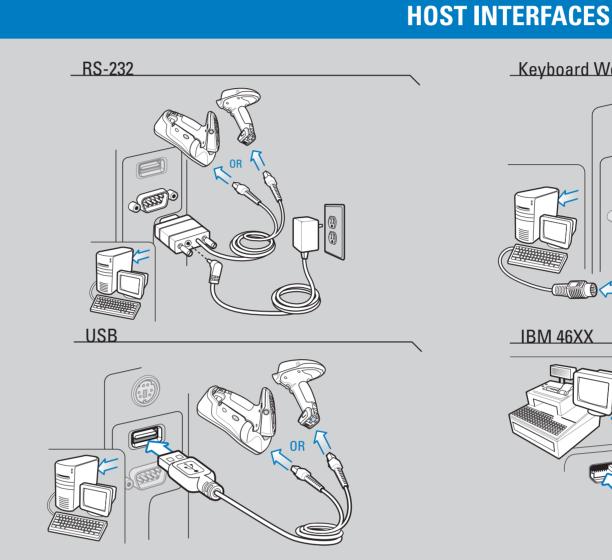

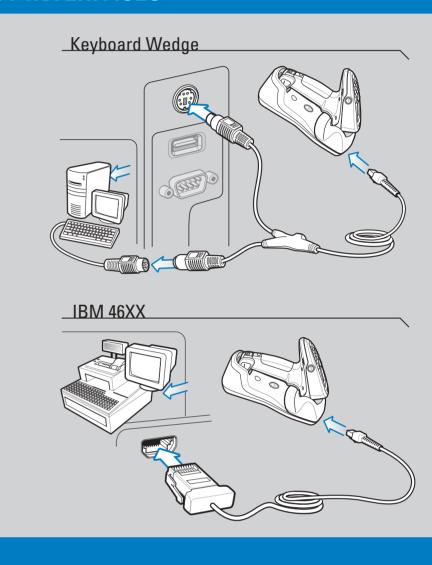

**CONNECTIONS** 

## **TROUBLESHOOTING**

Refer to the Symbol MT2000 Series User Guide Troubleshooting section for further information.

Scanner not working No power to scanner

Check battery

NOTE: Under certain circumstances, a fully discharged battery can take up to 30 minutes to charge before the scanner is operational. Refer to the User Guide for

Scanner not decoding bar code Scanner not programmed Bar code unreadable

> Ensure scanner is programmed to read type of bar code being scanned

for bar code type

Scanning application is not running Ensure bar code is not defaced; try scanning test bar code of same

bar code type

From the Home screen display on the scanner, select Scan Item to run the scanning application

Scanner decoding bar code, but data not transmitting to host Scanner not paired to host-connected cradle Cradle not programmed for correct host interface

Pair the scanner to the cradle (using the PAIR bar code on the cradle)

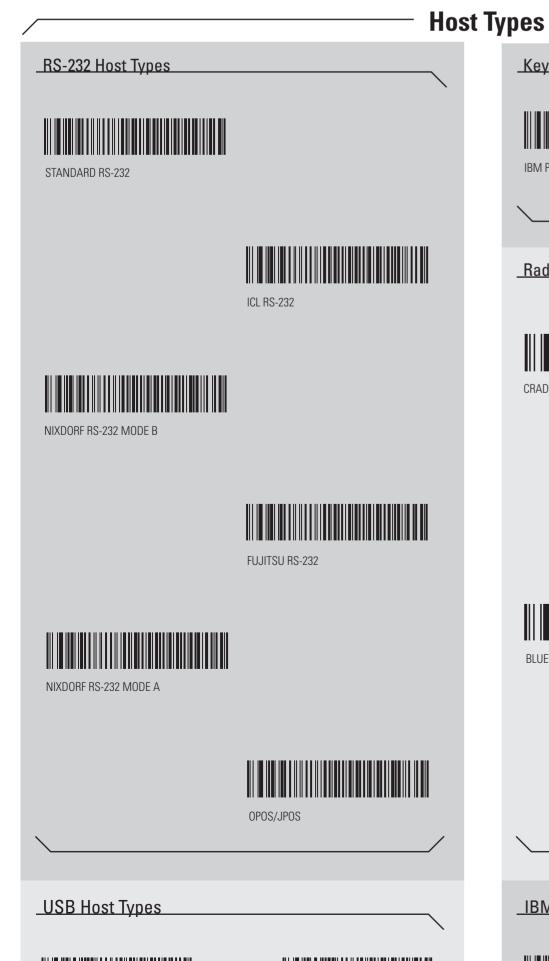

Check scanner host parameters or edit options

Interface cable is loose Check for loose cable Scanned data incorrectly displayed on host Paired cradle host communication parameters do not match the host's parameters

Check cradle host parameters or edit options

NOTE: If data is still not transmitting to host, it may be necessary to recycle power on the cradle.

## **SYMBOL MT2000 SERIES PROGRAMMING BAR CODES**

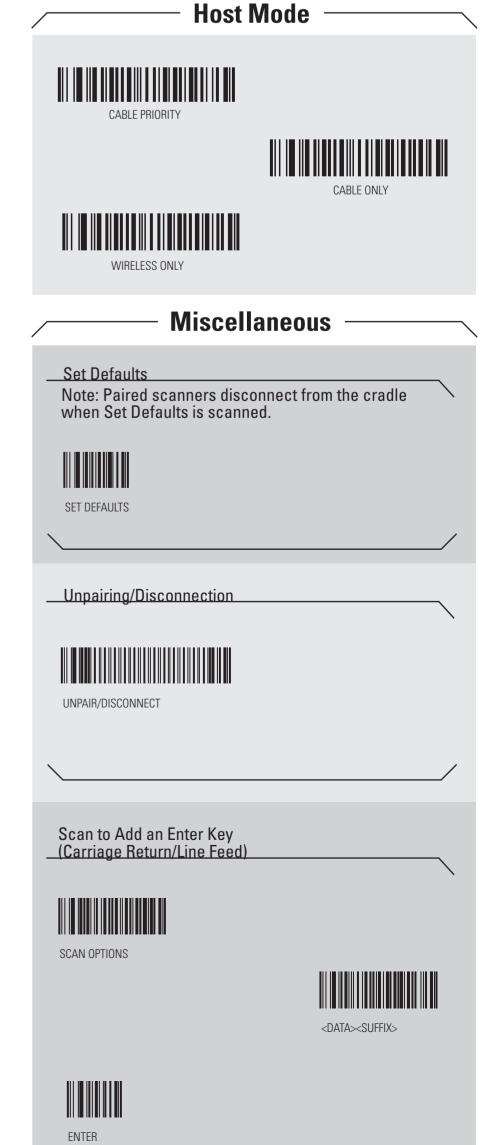

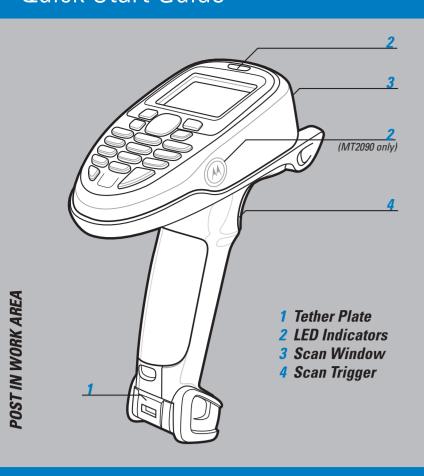

IBM HAND-HELD USB

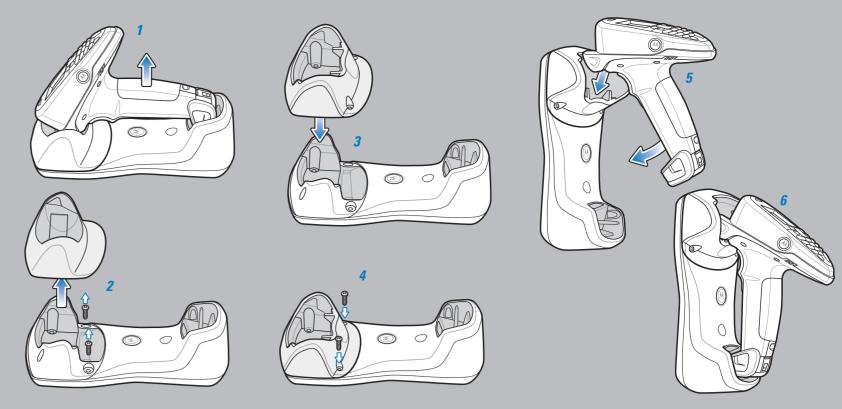

HID KEYBOARD EMULATION

ACTIVESYNC HOST

NOTE: When mounting a cradle on a wall, ensure the Wall Mount Conversion Dial on the back of the cradle is in the correct position before mounting. Refer to the User Guide for detailed information about single slot, four slot and forklift cradles.

## **SCANNER INDICATIONS**

### **Scanner Beeper Indications**

Normal beep

Bar code decoded [if

Short high-low beeps

decode beeper enabled

Standard Use Low-medium-high beeps Power up

Short low-high beeps

Scanner has paired with the cradle Parameter Menu Scanning High-low-high-low beeps

Successful program exit with change in the parameter setting

Scanner has unpaired with the cradle

Long low-high beeps

Input error, incorrect programming sequence, or Cancel bar code scanned

## **Scanner Display Indications**

Battery Strength = Low battery; recharge NOTE: If this icon displays in red, the scanner = Battery 25% full

■ Battery 50% full ■ Battery 75% full

= Battery full

Battery 25% full

= Low battery

Battery Charging/AC Power

4 long low beeps

Transmission error

detected; data is ignored

Long low-high beeps or

Long low-high-low-high beeps

Unsuccessful pairing attempt

Battery 75% full

Battery 50% full

Battery full

## **Scanner LED Indications**

No power applied to scanner (battery discharged or removed); scanner is in low power and ready to scan; or, battery is fully charged and scanner

Bar code successfully decoded Data transmission error or scanner malfunction

Charging Use Green Flash

Standard Use

Scanner charging (when cradle is powered from external power supply)

Battery Problem

= Battery fault

= Battery fault/AC power applied Connection Icons

= Bluetooth active (STB2078 only) = RS-232 cable attached = USB cable attached

Wireless Signal Strength

= Very low signal = Good signal

Excellent signal

## X Waste Electrical and Electronic Equipment (WEEE)

English: For EU Customers: All products at the end of their life must be returned to Motorola **Bulgarish:** За клиенти от ЕС: След края на полезния им живот всички продукти трябва да се връщат на Motorola за рециклиране. За информация относно връщането на гродукти, моля отидете на адрес: http://www.motorola.com/recycling/weee.

Čeština: Pro zákazníky z EU: Všechny produkty je nutné po skončení jejich životnosti vrátit společnosti Motorola k recyklaci. Informace o způsobu vrácení produktu najdete na webové stránce: http://www.motorola.com/recycling/weee. Dansk: Til kunder i EU: Alle produkter skal returneres til Motorola til recirkulering, når de er udtjent. Læs oplysningerne om returnering af produkter på: http://www.motorola.com/recycling/weee. Deutsch: Für Kunden innerhalb der EU: Alle Produkte müssen am Ende ihrer Lebensdauer zum Recycling an Motorola zurückgesandt werden, Informationen zur Rücksendung von Produkten finden Sie unter http://www.motorola.com/recycling/weee.

### Software Support

Motorola Enterprise Mobility wants to ensure that customers have the latest entitled software at the time of device\* purchase in order to keep the device operating at peak performance levels. To confirm that your Motorola device\* has the latest entitled software available at the time of purchase, visit http://www.motorola.com/enterprisemobility. Check for the latest software from Support > Enterprise Mobility Products, or search for the device and select Support > Software Downloads.

If your device does not have the latest entitled software as of your device purchase date, e-mail Motorola at entitlementservices@motorola.com and ensure you include the following essential device information:

• Model number • Serial number Proof of purchase

• Title of the software download you are requesting

Avoid bending and reaching

is entitled to the latest version of software, as of the date you purchased your device, you will receive an e-mail containing a link directing you to a Motorola Web site to download the appropriate software.

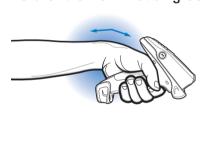

If it is determined by Motorola that your device

\* This applies to Motorola Mobile Computing devices and select Advanced Data Capture

## **RECOMMENDED USAGE GUIDE - OPTIMUM BODY POSTURE**

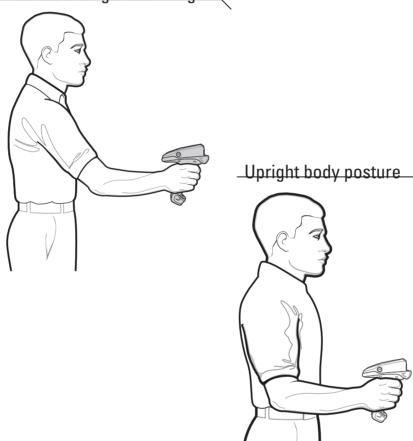

# Low scanning Alternate left and right knees

Avoid extreme wrist angles

## Extended range scanning

# AVOID BENDING

**AVOID REACHING** 

# **SYMBOL MT2000 Series REGULATORY INFORMATION**

· Improve work procedures

### This device is approved under the Symbol Technologies brand: Symbol Technologies, Inc., is the Enterprise Mobility business of Motorola, Inc. ("Motorola"). All Motorola/Symbol devices are designed to be compliant with rules and regulations in locations they are sold and will be labeled as required.

Local language translations are available at the following website: http://www.motorola.com/enterprisemobility/support. Any changes or modifications to Motorola/Symbol Technologies equipment, not expressly approved by Motorola/Symbol Technologies, could void the user's authority to operate the equipment.

Only use Motorola/Symbol approved and UL Listed accessories, battery packs and battery chargers. Do NOT attempt to charge damp/wet mobile computers or batteries. All components must be dry before connecting to an external power source.

Wireless Device Country Approvals Regulatory markings, subject to certification, are applied to the device signifying the radio(s) is/are approved for use in the following countries: United States, Canada, Japan, China, S. Korea, Australia, and Europe 1 Please refer to the Symbol Declaration of Conformity (DoC) for details of other country markings. Note 1: For 2.4GHz or 5GHz Products: Europe includes, Austria, Belgium, Bulgaria, Czech Republic, Cyprus, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovak Republic, Slovenia, Spain, Sweden, Switzerland and the United Kingdom.

### Operation of the device without regulatory approval is illegal. Frequency of Operation – FCC and IC 5 GHz Only

The use in the UNII (Unlicensed National Information Infrastructure) band 1 5150-5250 MHz band is restricted to Indoor Use Only; any other use will make the operation of this device illegal.

The available channels for 802.11 b/g operation in the US are Channels 1 to 11. The range of channels is limited by firmware.

## Health and Safety Recommendations

Ergonomic Recommendations

Caution: In order to avoid or minimize the potential risk of ergonomic injury follow the recommendations below. Consult with your local Health & Safety Manager to ensure that you are adhering to your company's safety programs to prevent employee injury.

 Reduce or eliminate repetitive motion · Perform tasks at correct heights Provide adequate clearance Maintain a natural position · Reduce or eliminate vibration · Provide a suitable working

 Keep objects that are used frequently within easy reach

· Reduce or eliminate direct pressure Reduce or eliminate excessive force Provide adjustable workstations

Warnings for Use of Wireless Devices Please observe all warning notices with regard to the usage of wireless devices

Safety in Hospitals

Wireless devices transmit radio frequency energy and may affect medical electrical equipment.

Wireless devices should be switched off wherever you are requested to do so in hospitals, clinics or health care facilities. These requests are designed to prevent possible interference with sensitive medical equipment. **Pacemakers** Pacemaker manufacturers recommended that a minimum of 15cm (6 inches) be maintained between a handheld wireless device and a pacemaker to avoid potential interference with the pacemaker. These recommendations

are consistent with independent research and recommendations by Wireless Technology Research. Persons with Pacemakers:

• Should ALWAYS keep the device more than 15cm (6 inches) from their pacemaker when turned ON.

Should not carry the device in a breast pocket.

 Should use the ear furthest from the pacemaker to minimise the potential for interference • If you have any reason to suspect that interference is taking place, turn OFF your device.

RF Exposure Guidelines

**Other Medical Devices** Please consult your physician or the manufacturer of the medical device, to determine if the operation of your wireless product may interfere with the medical device.

Safety Information

Reducing RF Exposure - Use Properly Only operate the device in accordance with the instructions supplied

The device complies with internationally recognized standards covering human exposure to electromagnetic fields from radio devices. ΕU

Handheld Devices

To comply with EU RF exposure requirements, this device must be operated in the hand with a minimum separation distance of 20 cm or more from a person's body. Other operating configurations should be avoided. For information on "International" human exposure to electromagnet fields refer to the Motorola/Symbol Declaration of Conformity (DoC) at http://www2.symbol.com/doc/.

**Handheld Devices** 

To comply with FCC RF exposure requirements, this device must be operated in the hand with a minimum separation distance of 20 cm or more from a person's body. Other operating configurations should be avoided.

### **Batteries** Charging

To charge the device battery, the battery and charger temperatures must be between  $+32\,^{\circ}$  F and  $+104\,^{\circ}$  F (0  $^{\circ}$  C and  $+40\,^{\circ}$  C). Please follow the local regulations when disposing of re-chargeable batteries.

Taiwan - Recycling「廢電池請回收」 EPA (Environmental Protection Administration) requires dry battery producing or importing firms in accordance with Article 15 of the Waste Disposal Act are required to indicate the recycling marks on the batteries used in sales, giveaway or promotion. Contact a qualified Taiwanese recycler for proper battery disposal.

**Battery Information** Motorola/Symbol rechargeable battery packs are designed and constructed to the highest standards within the industry.

However, there are limitations to how long a battery can operate or be stored before needing replacement. Many factors affect the actual life cycle of a battery pack, such as heat, cold, harsh environmental conditions and severe drops When batteries are stored over six (6) months, some irreversible deterioration in overall battery quality may occur. Store batteries at half of full charge in a dry, cool place, removed from the equipment to prevent loss of capacity, rusting of metallic parts and electrolyte leakage. When storing batteries for one year or longer, the charge level should be verified at least once a year and charged to half of full charge. Replace the battery when a significant loss of run time is detected.

Standard warranty period for all Symbol batteries is 30 days, regardless if the battery was purchased separately or included as part of the mobile computer or bar code scanner. For more information on Symbol batterie please visit: http:/mysymbolcare.symbol.com/battery/batbasics1.html

**Battery Safety Guidelines** • The area in which the units are charged should be clear of debris and combustible materials or chemicals.

- Particular care should be taken where the device is charged in a non commercial environmen • Follow battery usage, storage, and charging guidelines found in the user's guide. • Improper battery use may result in a fire, explosion, or other hazard.
- · To charge the mobile device battery, the battery and charger temperatures must be between +32 ° F and +104 ° F (0 ° C and +40 ° C)
- Do not use incompatible batteries and chargers. Use of an incompatible battery or charger may present a risk
  of fire, explosion, leakage, or other hazard. If you have any questions about the compatibility of a battery or
  a charger, contact Motorola Enterprise Mobility support. For devices that utilize a USB port as a charging source, the device shall only be connected to products that bear the USB-IF logo or have completed the USB-IF compliance program.
- Do not disassemble or open, crush, bend or deform, puncture, or shred. · Severe impact from dropping any battery-operated device on a hard surface could cause the battery to overheat.
- Do not short circuit a battery or allow metallic or conductive objects to contact the battery terminals. . Do not modify or remanufacture, attempt to insert foreign objects into the battery, immerse or expose to water or other liquids, or expose to fire, explosion, or other hazard.
- Do not leave or store the equipment in or near areas that might get very hot, such as in a parked vehicle or near a radiator or other heat source. Do not place battery into a microwave oven or dryer . Battery usage by children should be supervised.
- Please follow local regulations to promptly dispose of used re-chargeable batteries. . Do not dispose of batteries in fire Seek medical advice immediately if a battery has been swallowed.
- In the event of a battery leak, do not allow the liquid to come in contact with the skin or eyes. If contact has been made, wash the affected area with large amounts of water and seek medical advice If you suspect damage to your equipment or battery, contact Motorola Enterprise Mobility support to arrange

Radio Frequency Interference Requirements- FCC Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are

FOR HOME OR OFFICE USE

Tested to comply with FCC Standards

interference that may cause undesired operation.

designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

· Reorient or relocate the receiving antenna · Increase the separation between the equipment and receiver

· Connect the equipment into an outlet on a circuit different from that to which the receiver is connected • Consult the dealer or an experienced radio/TV technician for help. Radio Transmitters (Part 15) This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including

This Class B digital apparatus complies with Canadian ICES-003. Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Radio Frequency Interference Requirements- Canada

The use of 5 GHz RLAN's, for use in Canada, have the following restrictions:

• Restricted Band 5.60 - 5.65 GHz This device complies with RSS 210 of Industry & Science Canada. Operation is subject to the following two conditions: (1) this device may not cause harmful interference and (2) this device must accept any interference

received, including interference that may cause undesired operation. Label Marking: The Term "IC:" before the radio certification only signifies that Industry Canada technical

( Marking and European Economic Area (EEA) The use of 2.4GHz RLAN's, for use through the EEA, have the following restrictions: • Maximum radiated transmit power of 100 mW EIRP in the frequency range 2.400 -2.4835 GHz. • France, outside usage is restricted to 2.4 - 2.454 GHz.

The use of 5GHz RLANs has varying restrictions for use within the EEA; please refer to the Motorola/Symbol Declaration of Conformity (DoC) for details at http://www2.symbol.com/doc/. Bluetooth® Wireless Technology for use through the EEA has the following restrictions: Maximum radiated transmit power of 100mW EIRP in the frequency range 2.400 -2.4835 GHz

 France, outside usage is restricted to 10mW EIRP · Italy requires a user license for outside usage.

• Italy requires a user license for outside usage.

## Statement of Compliance

Motorola/Symbol hereby, declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC. A Declaration of Conformity may be obtained from http://www2.symbol.com/doc/.

### Japan (VCCI) - Voluntary Control Council for Interference この装置は、情報処理装置等電波障害自主規制協議会(VCCI)の基準に基づくクラスB情報技術装置です。この

装置は、家庭環境で使用することを目的としていますが、この装置がラジオやテレビジョン受信機に近接して使用さ れると、受信障害を引き起こすことがあります。取扱説明書に従って正しい取り扱いをして下さい。 This is a Class B product based on the standard of the Voluntary Control Council for Interference from Information Technology Equipment (VCCI). If this is used near a radio or television receiver in a domestic environment, it may cause radio interference. Install and use the equipment according to the instruction manual **Other Countries**
