

Dual Band WLAN Adapter

WLU5080-D4(ROHS) Quick Setup Guide

V1.0

Askey Computer Corp. WLU5080-D4(ROHS)

Features

- Compatible with IEEE802.11a/b/g/n
- Supports USB 2.0

How to use this Dual Band WLAN Adapter

Turn on the power of the **Host device**. (For example, TV or printer or other **mobile device**) Choose “**PREFERENCES**” → “**Network Setup**” → “**Easy Setup**” → “WPS Configuration” → select “PBC” → “Push WPS button on your AP” → complete wireless configuration → quit the setup menu → launch internet application

(Please refer to the user manuals of your **Host device** and AP for more details.)

Important notice

Please review / study WLU5080-D4(ROHS) Regulatory Statement to avoid non-legal use of this product.

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device is restricted to indoor use when operated in the 5.15 to 5.25 GHz frequency range.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance **20cm** between the radiator & your body.

This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

This device is restricted to indoor use when operated in the 5.15 to 5.25 GHz frequency range.

- FCC requires this product to be used indoors for the frequency range 5.15 to 5.25 GHz to reduce the potential for harmful interference to co-channel Mobile Satellite systems.
- This device will not permit operations on channels 116-128 for 11na and 120-128 for 11a which overlap the 5600 -5650MHz band.
