- In the Quick Extender Setup instructions.
- 4 Assign a unique network name (SSID) for your extended network.
- Solution 1 Solution Soluti

01 Connect via WPS

02 Enjoy Wi-Fi

Press the WPS button on your router/AP.

Press the WPS button on your RP-AC55 for more than two (2) seconds until the power LED starts to blink.

NOTE: Wait until the existing network LED blinks for about two (2) minutes, then turns solid blue, indicating the WPS process is completed.

Your RP-AC55's wireless network name (SSID) changes to your existing Wi-Fi network name, ending with **_RPT** or **_RPT5G** and shares your router/AP's Wireless Password.

METHOD 3 WEB SUPPORT

01 Connect

NOTE: The screenshot below is from a desktop PC.

| Not connected | ty) able |
|---|-------------|
| Wireless Network Connection | n 🔺 |
| ASUS_RPAC55 | atl |
| ASUS_RPAC55_5G Connect automatically | Connect |
| | |

Disconnect your Ethernet (wired) connection from your computer. Click the Wi-Fi icon on the taskbar and connect to RP-AC55's network: **ASUS_RPAC55** or **ASUS_RPAC55_5G**.

02 Extend

On a web browser, enter <u>http://repeater.asus.com</u>.

- 2 Set a unique repeater login name and password.
- Select the existing network you want to extend.

| | Select the WI-Fi network you would like to extend. | | | | | |
|--|--|--|--|---|---------|---|
| | Wi-Fi Network Lists | | | Q | | |

RELOCATION

FIND THE BEST PLACE

After a successful setup

Place your RP-AC55 between your router/AP and wireless device to get the best performance.

MOVE CLOSER

Need to move RP-AC55 closer to the router/AP

MOVE AWAY SLIGHTLY

Need to move RP-AC55 slightly away from the router/AP.

NOTE: To minimize maintenance, keep your RP-AC55 away from devices such as cordless phones, Bluetooth devices, and microwave ovens.

IMPORTANT! We recommend that you place your RP-AC55 in open or spacious location.

AP MODE

01 Connect

NOTE: The screenshot below is from a desktop PC.

| Not connected | 44 |
|-----------------------------|--------|
| Connection are available | 2 |
| Wireless Network Connection | |
| ASUS_RPAC55 | atl |
| ASUS_RPAC55_5G | all |
| Connect automatically | onnect |

Disconnect your Ethernet (wired) connection from your computer. Click the Wi-Fi icon on the taskbar and connect to RP-AC55's network: **ASUS_RPAC55** or **ASUS_RPAC55_5G**.

AP MODE SETUP

02 Log in

Enter your login account and password.

From your RP-AC55's web interface, click Administration, and select Access Point mode.

NOTE: You can also change to different modes from this page.

03 Setup

• Set up the network name (SSID) and click Apply.

After your RP-AC55 has rebooted, connect your RP-AC55 and router/AP using an Ethernet cable.

NOTE: We recommend that you use Cat 5e cable or higher.

FAQ

FREQUENTLY ASKED QUESTIONS

| \bigcap | 11 | |
|------------|----|--|
| \bigcirc | 21 | |

What should I do if my router does not support WPS?

A: You can use Method One or Method Three to set up your RP-AC55.

Why is it that the LED indicator for the current network does not light up after the Wi-Fi setup is complete?

A: You may have entered the wrong password for the router/AP. Please restart your RP-AC55, enter the correct password, and try to set up your RP-AC55 again.

Why is it that I cannot see the login page after entering http://repeater.asus.com in the browser?

A: Ensure that your computer is connected to your RP-AC55 network only, and set your computer to Obtain an IP address automatically. If you still cannot find the login page, please download the ASUS Device Discovery utility.

How do I reset RP-AC55?

A: Press the RESET button on the side of RP-AC55 for about two (2) seconds. Wait for about five (5) seconds until the existing network LED blinks slowly.
