# English

## Installation

1. Connect your ADSL/Cable modem's internet line to WHG-1000's WAN port.
2. Connect your PC to WHG-1000's LAN1 port, The LAN1 LED indicator should be ON.
3. Plug-in the Power Adapter.

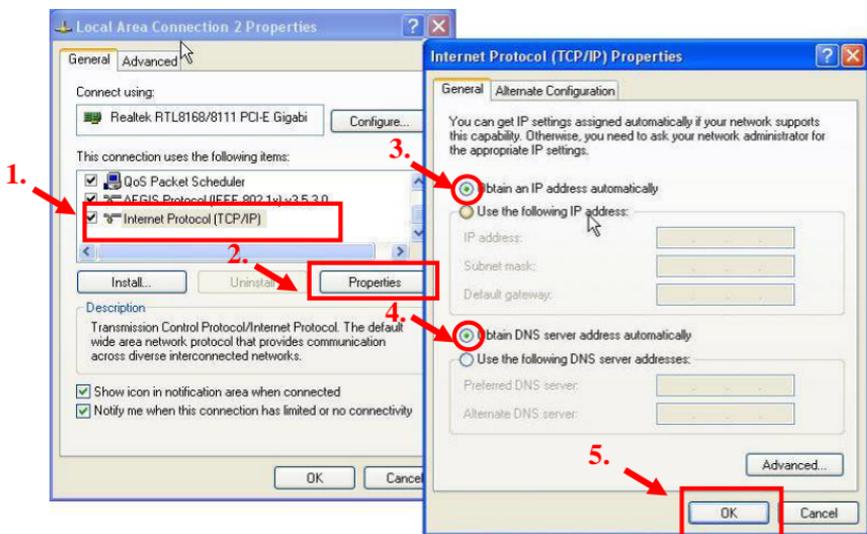

### Note:

WHG-1000 has two virtual zones **Private** and **Public** which are mapped to LAN1(192.168.1.254) and LAN2(192.168.11.254) respectively.

## Check Your Network Settings

1. Please make sure your PC can get IP address automatically so the WHG-1000 can communicate with your PC during configuration.
  - Select “Control Panel” > “Network Connections”.
  - Right click the “Local Area Connection” and choose “Properties”.
  - Select the TCP/IP protocol for your network card.
  - Click on the Properties button. You should then see the following screen and make sure you have selected “Obtain IP address automatically”

2. Reboot computer to make sure you have received the IP address correctly from the Router.

Steps:

1. Launch a web browser to access the web management interface of WHG-1000 by entering “**https://192.168.1.254**” or “**http://192.168.1.254**” in the address field.

2. The following Administrator Login Page will then appear. Enter “**admin**” (the default value) in the *Username* and *Password* fields, and then click **Login** to log in.

3. The **Home Page** will appear after a successful login.

4. Click on the **Setup Wizard** button to start the configuration process.

5. Configure the Administrator's password, Time settings, and Portal URL settings, then click Next to continue.

The screenshot shows the LevelOne Setup Wizard interface. At the top right, there are links for 'Home' and 'Logout'. The LevelOne logo is on the top left. The main heading is 'Setup Wizard'. On the left side, there is a vertical navigation pane with buttons for 'Step 1', 'Step 2', 'Step 3', 'Step 4', and 'Exit'. The 'Step 1' button is highlighted in orange. Below the 'Step 1' button, there is a note: 'It is recommended to change administrator's password, and select an appropriate time zone and NTP server for the system.' The main content area is titled 'Step 1. General' and contains the following configuration fields:

- Administrator's Password:** Two input fields for 'New Password' and 'Verify Password', both containing six dots and marked with an asterisk.
- Time:** A 'Time Zone' dropdown menu set to '(GMT)Greenwich Mean Time: Dublin, Lisbon, London' and an 'NTP Server' input field containing 'tock.usno.navy.mil' with a red asterisk and a note '(e.g. tock.usno.navy.mil)'.
- Portal URL:** A 'Status' section with 'Enable' selected (radio button) and 'Disable' unselected. Below it is a 'URL' input field containing 'http://www.level1.com/' with a red asterisk.

A yellow 'Next' button is located at the bottom right of the configuration area.

6. Select a proper type of Internet connection for WAN interface from the following connections: **Static**, **Dynamic**, or **PPPoE**.  
Your ISP or network administrator can advise on the connection type available to you.

## Installation

1. Schließen Sie Ihr ADSL/ Kabelmodem an WAN-Port des WHG-1000 an.
2. Verbinden Sie Ihren PC mit dem LAN Port 1 vom WHG-1000. Die LAN1 LED sollte aktiviert sein.
3. Schließen Sie das Netzteil an.

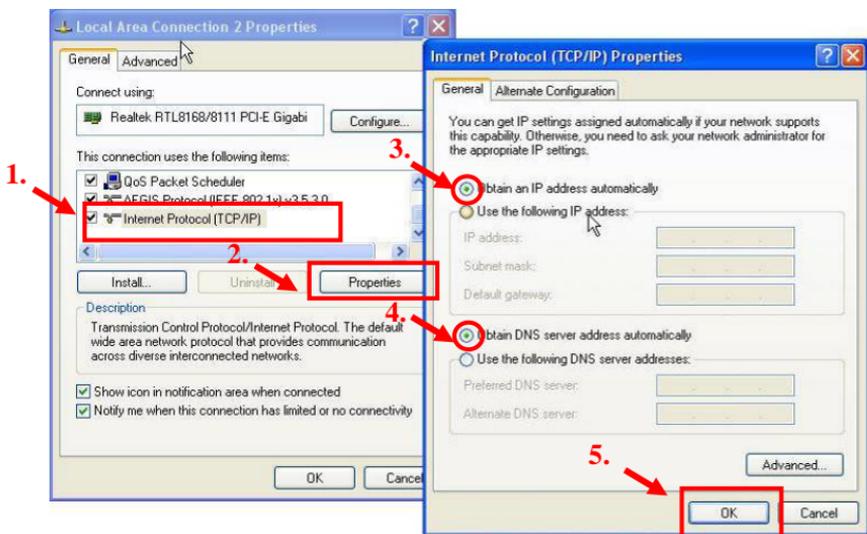

### Hinweis:

WHG-1000 hat eine private und eine öffentliche Zone, die an LAN1 (192.168.1.254) und LAN2 (192.168.11.254) gebunden sind.

Überprüfen Sie Ihre Netzwerkeinstellungen:

1. Stellen Sie sicher, dass Ihr PC automatisch eine IP Adresse vom WHG-1000 bezieht.
2. Rufen Sie die Systemsteuerung aus und wählen Sie "Netzwerkverbindungen".
  - Klicken Sie auf Local Area Connection und wählen Sie "Einstellungen".
  - Wählen Sie das TCP/IP Protokoll aus.
  - Klicken Sie auf "Einstellungen". Sie sollten den Hinweis markiert sehen, dass eine IP Adresse automatisch bezogen wird.

3. Starten Sie den Computer neu, um sicherzustellen, dass Ihr Rechner eine IP Adresse vom WHG-1000 bezieht.

Schritte:

1. Rufen Sie Ihren Webbrowser auf und geben Sie in das Adressenfeld `https://192.168.1.254` oder `http://192.168.1.254` ein.

2. Ein Administrator-Login erscheint. Geben Sie als Benutzername und als Passwort jeweils "admin" ein und klicken Sie anschließend auf "Login".

3. Nach erfolgreichem Login erscheint die Konfigurationsoberfläche des WHG-1000.

4. Klicken Sie auf den Setup Wizard Button, um den Konfigurationsprozess zu starten.

5. Konfigurieren Sie die Administrationszugangsdaten, Zeiteinstellungen, URL Einstellungen und klicken Sie auf "Fortfahren".
