

Nighthawk® LTE Mobile  
Hotspot Router

Let's get started

## Use the Nighthawk Mobile Router to Charge Other Devices

Give your smartphone or other device a boost by connecting to the mobile router's USB port. Battery boost begins automatically once the devices are connected.

## What's in the Box?

- Nighthawk LTE Mobile Hotspot Router with pre-installed SIM card
- Bottom cover
- Battery
- Quick start guide
- USB Type-C cable
- AC adapter

## LED Status

<i>Slow blue blink</i>	Ready for use.
<i>Fast blue blink</i>	Transferring data.
<i>Slow amber blink</i>	Not ready status.

## Check SIM and Insert the Battery

1. Power off.

2. Check that the SIM card is firmly in place.

3. Insert the battery.

4. If you purchased an optional micro SD card (sold separately), insert the card into the micro SD slot.

5. Close the device with cover (included).

**NOTE:** Open the cover by sliding the cover in the direction of the arrows on the cover until it clicks free.

## Power on Your Device

**Turn on**

Press and hold the **Power** button for three seconds.

**Turn off**

Press and hold the **Power** button for five seconds.

**Wake**

Press and quickly release the **Power** button.

**Switch screens**

Press and quickly release the **Power** button.

## Connect Your Devices

1. Make sure that WiFi is enabled on the computer or mobile device and search for WiFi networks.

**Windows** Click **Internet Access**  (bottom right of your screen).

**Mac** Go to the **WiFi** menu and select **Network**.

**Mobile devices** Go to **Settings** and tap the **WiFi** icon.

2. Press and release **Power** button to view WiFi name and password.

3. Select the WiFi name on the device that matches the name displayed on the mobile router screen.

4. Enter the WiFi password as shown on the Nighthawk mobile router screen.

**NOTE:** The password is case-sensitive.

## Manage the Device on the Web

Change settings, view the device info, messages, and change features.

1. Visit <http://attwifimanager/> or <http://192.168.1.1>.

2. Follow on-screen instructions.

3. Change the default admin password for increased security.

4. Log in using your admin password (default is attadmin), and click **Sign In**.

Manage settings using the NETGEAR mobile app.

1. Connect to the Internet.

2. Download the NETGEAR mobile app from [netgear.com/mobileapps](http://netgear.com/mobileapps).

## Upload and Share Files

Upload media files to a micro SD card or USB drive connected to the mobile router (both sold separately).

To upload media files using a computer:

1. Go to <http://attwifimanager/> or <http://192.168.1.1> and log in with admin password.

2. Select **Settings > Setup > Router Setup**.

3. Select the **Charge Only** option from **User USB port** for under **Tethering**.

4. Click the **MyMedia** tab.

5. Drag and drop the files onto the page.
